

Stanford

H. Peter Lorenz, MD

Professor of Surgery (Plastic and Reconstructive Surgery)

Surgery - Plastic & Reconstructive Surgery

CLINICAL OFFICES

- **Pediatric Surgical Specialties Clinic**

730 Welch Rd 1st Fl
Palo Alto, CA 94304

Tel (650) 497-8794 **Fax** (650) 497-8874

- **Adult Plastic Surgery Clinic**

900 Blake Wilbur Dr Rm W1083
MC 5311

Stanford, CA 94305

Tel (650) 723-7001 **Fax** (650) 725-5223

- **Stanford Plastic Surgery Clinic**

1000 Welch Rd
MC 5348
Palo Alto, CA 94304

Tel (650) 723-7001 **Fax** (650) 725-5223

ACADEMIC CONTACT INFORMATION

- **Academic Administrative Contact**

Lillian Lee - Administrative Associate

Email lilcllee@stanford.edu

Tel 650-724-5985

Bio

CLINICAL FOCUS

- Plastic Surgery, Pediatric
- Plastic Surgery
- Cleft lip and palate surgery
- Facial surgery
- Plastic and Reconstructive Surgery
- facial fracture surgery
- Body contouring surgery
- abdominal wall surgery
- ventral hernia surgery
- incisional hernia surgery

ACADEMIC APPOINTMENTS

- Professor - University Medical Line, Surgery - Plastic & Reconstructive Surgery

- Member, Bio-X

ADMINISTRATIVE APPOINTMENTS

- Service Chief, Plastic Surgery, Lucile Packard Children's Hospital, (2006- present)

HONORS AND AWARDS

- Leslie Hovey Teaching Award, Stanford Plastic Surgery (2005)

PROFESSIONAL EDUCATION

- Fellowship: Stanford University Dept of Plastic Surgery (1998) CA
- Residency: UCLA Dept of Plastic Surgery (1997) CA
- Residency: UCSF General Surgery Residency (1995) CA
- Internship: UCSF General Surgery Residency (1988) CA
- Board Certification: Plastic Surgery, American Board of Plastic Surgery (2000)
- Medical Education: University of Michigan School of Medicine (1987) MI
- -, Stanford University , Craniofacial Surgery (1998)
- -, UCLA , Plastic Surgery (1997)
- -, UCSF , Surgery (1995)
- MD, University of Michigan , Medicine (1987)
- BS, UCLA , Biology (1983)

Research & Scholarship

CURRENT RESEARCH AND SCHOLARLY INTERESTS

Dr. Lorenz graduated from the University of Michigan School of Medicine. He then completed the General Surgery Residency Program at UCSF. This program included five clinical years in surgery and three years in a research fellowship in the UCSF Fetal Treatment Center with Drs. Michael Harrison and N. Scott Adzick. The research fellowship emphasized both development of novel fetal surgical techniques and understanding the biology of scarless fetal wound healing. Next, he completed the residency program in Plastic and Reconstructive Surgery at UCLA, with an emphasis on reconstructive, cosmetic, and microsurgery. Lastly, he completed the Craniofacial Surgery Fellowship at the Lucile Packard Children's Hospital and the Stanford University Hospital.

Dr. Lorenz then joined the full-time academic faculty at UCLA as Assistant Professor in the Department of Surgery, Division of Plastic and Reconstructive Surgery. He initiated and developed a research program that investigated the molecular regulation of scarless skin wound healing. His research also focused on the biology of fat-derived stem cells and their use for tissue engineering. He was the first UCLA Plastic Surgery faculty member to be awarded a research grant from the NIH, which he received in the field of scarless wound healing. He was Director of the Gonda Wound Treatment Center, which treated patients with refractory wounds. He was promoted to Associate Professor shortly before leaving UCLA in 2001.

Dr. Lorenz is a Professor in the Division of Plastic and Reconstructive Surgery. His clinical interests are in craniofacial surgery, pediatric plastic surgery, reconstructive surgery, and cosmetic surgery. He is certified by the American Board of Surgery and by the American Board of Plastic Surgery. He is a member of the California Society of Plastic Surgeons, the American Society of Plastic Surgeons, and the Plastic Surgery Research Council.

Dr. Lorenz directs the Scarless Skin Repair Laboratory in the Hagey Laboratory for Pediatric Regenerative Medicine. His group is studying mechanisms underlying scarless skin healing, including the interactions of fetal and adult keratinocytes and fibroblasts in the TGF- β system. His group is also investigating the function of progenitor cells during repair, and the translational use of fat-derived stem cells in chronic wound therapy and tissue engineering.

CLINICAL TRIALS

- Gene Transfer for Recessive Dystrophic Epidermolysis Bullosa, Not Recruiting

Teaching

COURSES

2018-19

- Plastic Surgery: SURG 209 (Aut)

2017-18

- Plastic Surgery: SURG 209 (Aut, Sum)
