

Stanford

John Hotson

Professor (Clinical) of Neurology and Neurological Sciences, Emeritus
Neurology & Neurological Sciences

Bio

ACADEMIC APPOINTMENTS

- Emeritus Faculty, Acad Council, Neurology & Neurological Sciences

ADMINISTRATIVE APPOINTMENTS

- Chief of Neurology, Santa Clara Valley Medical Center, (1985-2009)

HONORS AND AWARDS

- Lysia Fornia Award for Teaching Excellence, Department of Neurology, Stanford University School of Medicine (1991)
- Neurology Clerkship Teaching Award, Department of Neurology, Stanford University School of Medicine (2004-2007, 2009)

PROFESSIONAL EDUCATION

- BA, Stanford University , Psychology (1968)
- MD (honors), University of Washington , Medicine (1972)

Research & Scholarship

CURRENT RESEARCH AND SCHOLARLY INTERESTS

The response and recovery of human visual, eye movement and related cognitive systems after acquired neurological disorders is a main area of interest. Experimental designs combine human brain neurophysiology techniques with psychophysics methods. We currently use transcranial magnetic stimulation (TMS) and transcranial direct current stimulation (tDCS) as probes to test the postulate that visual perceptual learning alters early visual cortex.
