Professor of Pediatrics (Gastroenterology), Emeritus  
Pediatrics - Gastroenterology

### CLINICAL OFFICE (PRIMARY)

- **Pediatric Gastroenterology**

730 Welch Rd 2nd Flr

Palo Alto, CA 94304

Tel (650) 491-6686

Fax (650) 721-3822

### Bio

---

#### CLINICAL FOCUS

- Gastroenterology/Nutrition/Hepatology, Pediatric
- Pediatric Gastroenterology

#### ACADEMIC APPOINTMENTS

- Professor Emeritus-Hourly, Pediatrics - Gastroenterology
- Member, Maternal & Child Health Research Institute (MCHRI)

#### PROFESSIONAL EDUCATION

- Fellowship: Stanford University School of Medicine (1979) CA
- Residency: Stanford University School of Medicine (1976) CA
- Medical Education: University of California at San Francisco School of Medicine (1973) CA
- Board Certification: Pediatric Gastroenterology, American Board of Pediatrics (1990)
- Board Certification: Pediatrics, American Board of Pediatrics (1979)
- Internship: Stanford University School of Medicine (1974) CA

#### CURRENT RESEARCH AND SCHOLARLY INTERESTS

I am interested in pediatric nutritional support and have experience evaluating new enteral and parenteral products especially for the neonate (I studied a "new" I.V. fat product for Abbott; I participated in a multicenter trial of a formula with fish oil in it for neonates with Mead Johnson and a multicenter trial of a new human milk fortifier for Wyeth). I am the medical director of our nutrition support team and home pharmacy and am interested in short- and long-term "outcome studies" re: use of TPN-impact on development of patient and family functioning in short bowel patients on long-term parenteral/enteral support.

More recently my research has involved : studying how to limit amounts of Aluminum in TPN solutions;Use of ethanol locks in preventing CLABSIs;Use of novel fat emulsions in IR patients; developing a "Care Card"for home TPN patients to improve the healthcare of pts. with central lines who present to the ED with fever;treatment of central line occlusion (original studies of Alteplase); risk factors of CLABSIs in pediatric short bowel syndrome:  
Liver biopsies in the first year of life in IR patients on TPN
