PUBLICATIONS

- **Optogenetic fMRI reveals distinct, frequency-dependent networks recruited by dorsal and intermediate hippocampus stimulations.** *NeuroImage*
Weitz, A. J., Fang, Z., Lee, H. J., Fisher, R. S., Smith, W. C., Choy, M., Liu, J., Lin, P., Rosenberg, M., Lee, J. H.
2015; 107: 229-241
- **High-throughput optogenetic functional magnetic resonance imaging with parallel computations** *JOURNAL OF NEUROSCIENCE METHODS*
Fang, Z., Lee, J. H.
2013; 218 (2): 184-195
