

## Markus Zechner

Adjunct Professor, Earth & Planetary Sciences

### Bio

---

#### BIO

Markus Zechner earned an MS degree in petroleum engineering from Mining University of Leoben. He joined OMV in 2008 as a reservoir engineer in Gaenserndorf, Austria. Zechner worked on gas, gas condensate, and oil reservoirs in the Vienna basin. During 2011 through 2013, he worked on the Technology and Reservoir Engineering Teams in the OMV Head Office on CO<sub>2</sub> injection and sequestration, water injection under fracturing conditions, and polymer injection. In 2013, Zechner started his PhD degree at Stanford University on uncertainty quantification of enhanced oil recovery processes.
