

Sherman Leung

- Affiliate, Department Funds
- Resident in Emergency Medicine
- 📄 Resume available Online

Bio

BIO

Sherman is an emergency medicine resident physician serving patients at Stanford Hospital, Kaiser Permanente Santa Clara, and Santa Clara Valley Medical Center. Before his career in medicine, Sherman spent time as a software engineer, digital health product manager, and early-stage healthcare investor. He received an MD at the Icahn School of Medicine at Mount Sinai through the support of the Paul & Daisy Soros Fellowship and started MD+, a 501c3 non-profit dedicated to empowering aspiring physician-innovators. He cares deeply about leveraging his background in technology to support underserved patient populations and building a more equitable, efficient, and cost-effective healthcare system.
