### Professional Overview

---

#### BIO

Christine has been a nurse practitioner with Stanford Hospital beginning in April of 2012. She began in the Emergency Department and Clinical Decision Unit. In this role she was responsible for the assessment and management of Emergency Department patients on a 24 hour observation unit. In April of 2014 she transitioned to the Cardiac Electrophysiology Service. In this role she is responsible for assessment and management of patients on the Arrhythmia service, admissions, Emergency Department consults, management of outpatients under the guidance of attending physicians, as well as performing procedures such as cardioversions and interrogation and interpretation of pacemakers and internal cardiac defibrillators. She was awarded the APP Clinical IV, for her contributions to Stanford as an Advanced Practice Provider. In May 2022, she was appointed Lead Advanced Practice Provider for the Inpatient Heart Failure and General Cardiology APP Service and developed a team of advanced practice providers to work in conjunction with the house staff Heart Failure and Cardiology services. Christine is also an adjunct professor at the University of California, San Francisco in the Acute Care and Geriatric Nurse Practitioner program and lectures for the Physician Assistant Masters program at Stanford School of Medicine.
