

Stanford

Caroline Ferguson

Ph.D. Student in Environment and Resources

Bio

BIO

Caroline Ferguson is a Stanford PhD student in the Emmett Interdisciplinary Program in Environment and Resources (E-IPER). She is currently engaged in two research endeavors: one investigating gender in Palau's sea cucumber fishery through an intersectional lens, and another addressing forced migration and climate adaptation in the Marshall Islands. As part of her work with Marshallese immigrants, she also conducts research in her home state, Arkansas. www.ceferguson.com
