

# Stanford

---

## Herman Winick

Professor of Applied Physics (Research), Emeritus

 Curriculum Vitae available Online

 Resume available Online

### CONTACT INFORMATION

- **Alternate Contact Administrative Contact**

Stephanie Carlson - Business Manager at Stanford Linear Accelerator Center

**Email** [steph@slac.stanford.edu](mailto:steph@slac.stanford.edu)

**Tel** (650) 926-2033

### Bio

---

#### BIO

Born and educated in New York City, he received his AB (1953) and his PhD (1957) from Columbia University. Following a postdoc position at the University of Rochester (1957-59) he continued work in high energy physics and accelerator development at the Cambridge Electron Accelerator at Harvard University (1959-73), serving as Assistant Director. He came to Stanford in 1973 to lead the technical design of the Stanford Synchrotron Radiation Project (SSRP), now SSRL, and served as Deputy Director of the laboratory until his semi-retirement in 1998 ([www.ssrl.slac.stanford.edu](http://www.ssrl.slac.stanford.edu)). He has taught physics at Columbia, Rochester, Harvard, MIT, Northwestern, University of Massachusetts, and Stanford. His 1970's and 1980's research developing periodic magnet systems (wiggler and undulators), had a major impact on synchrotron radiation sources and research facilities at Stanford and around the world. Beginning in 1992 he made major contributions to initiating and developing the Linac Coherent Light Source (LCLS), the world's first X-ray Free Electron Laser. Starting operation in 2009, the LCLS has shifted the major SLAC focus from high energy physics to x-ray sources and research. In 1997 he suggested SESAME, a synchrotron light source involving 9 countries in the Middle East. He has played a major role in the development of this project, on track to start research in 2016 ([www.sesame.org.jo](http://www.sesame.org.jo)). He is now promoting a similar project in Africa. Throughout his adult life he has been an activist in helping dissidents and protecting academic freedom and human rights.

#### ACADEMIC APPOINTMENTS

- Emeritus Faculty, Acad Council, Applied Physics

#### HONORS AND AWARDS

- Phi Beta Kappa, Columbia University (1953)
- Sr. Scientist Award, Alexander von Humboldt Society (1986)
- Significant Implication for Energy Related Technology, US Dept of Energy (1987)
- Fellowship, American Physical Society (1987)
- Fellowship, AAAS (1995)
- Prize for Achievement in Accelerator Physics, US Particle Accelerator School (1995)
- Distinguished Associate Award, US Dept of Energy (2000)
- Heinz R. Pagels Human Rights Award, New York Academy of Sciences (2005)
- Sakharov Prize, American Physical Society (2010)

## BOARDS, ADVISORY COMMITTEES, PROFESSIONAL ORGANIZATIONS

- Numerous advisory Committees, SRRC Taiwan; BESSY II in Berlin; ALS in Berkeley; SESAME in Jordan; African Light Source; Mexican Light Source; CAMD facility Baton Rouge LA; Beijing, Hefei and Shanghai synchrotron light sources; (1984 - present)

## PROFESSIONAL EDUCATION

- PhD, Columbia University , Physics (1957)
- AB, Columbia University , Physics (1953)

## Publications

---

### PUBLICATIONS

- **Synchrotron light sources in developing countries; sesame and others**  
Winick, H.  
AMER CHEMICAL SOC.2018
- **Synchrotron light sources in developing countries** *MODERN PHYSICS LETTERS A*  
Mtingwa, S. K., Winick, H.  
2018; 33 (9)
- **SESAME - A 3(rd) generation synchrotron light source for the Middle East** *SYNCHROTRON RADIATION INSTRUMENTATION, PTS 1 AND 2*  
Ulku, D., Rahighi, J., Winick, H.  
2007; 879: 208-?
- **SESAME, a third generation synchrotron light source for the Middle East region** *9th International Symposium on Radiation Physics*  
Einfeld, D., Hasnain, S. S., Sayers, Z., Schopper, H., Winick, H.  
PERGAMON-ELSEVIER SCIENCE LTD.2004: 693–700
- **Future possibilities of the Linac Coherent Light Source** *JOURNAL OF SYNCHROTRON RADIATION*  
Cornacchia, M., ARTHUR, J., Bane, K., Bolton, P., Carr, R., Decker, F. J., Emma, P., Galayda, J., Hastings, J., Hodgson, K., Huang, Z., LINDAU, I., Nuhn, et al  
2004; 11: 227-238
- **SESAME: an extended spectral range synchrotron radiation facility in the Middle East based on an upgrade to BESSY I** *7th International Conference on Synchrotron Radiation Instrumentation (SRI 2000)*  
Voss, G. A., Rabedeau, T., Raither, S., Schopper, H., Wehrerter, E., Winick, H.  
ELSEVIER SCIENCE BV.2001: 55–58
- **Transverse emittance measurements from a photocathode RF gun with variable laser pulse length** *20th International Free Electron Laser Conference 5th FEL User Workshop*  
Reis, D. A., HERNANDEZ, M., Schmerge, J. F., Winick, H., Hogan, M. J.  
ELSEVIER SCIENCE BV.1999: 341–46
- **Synchrotron radiation sources - Present capabilities and future directions** *6th International Conference on Synchrotron Radiation Instrumentation (SRI'97)*  
Winick, H.  
WILEY-BLACKWELL.1998: 168–175
