

## Joseph Romano

Professor of Statistics and of Economics

 Curriculum Vitae available Online

### Bio

---

#### BIO

##### PERSONAL BACKGROUND:

I grew up in an Italian New Jersey family, and attended Princeton where I was influenced by John Tukey and terrific mentor Nick Jewell. I got my Ph.D. from Berkeley in 1986, where I was fortunate enough to meet many of the great statisticians of the 20th century, including Erich Lehmann, Lucien LeCam, David Freedman, Rudy Beran, and others. I joined the faculty at Stanford in 1986 when I was 25 and have been at Stanford ever since. My professional life combines intellectual advancement, teaching, and mentoring of young students and researchers by sharing of knowledge and promoting academic integrity. I am proud to be part of the 500 Queer Scientists visibility campaign. I also lead a balanced life with passions in music (having performed at Carnegie Hall), tennis (ranked nationally in my age group), cooking, architecture, and other interests.

##### RESEARCH GOALS:

Statistics is concerned with making sense or inferences about the world based on limited information and uncertainties. In contrast, mathematics is exact, where the goal is to prove theorems based on a well-defined set of assumptions. It is the juxtaposition of statistics and mathematics that I find intriguing and challenging. Mathematical statistics serves to precisely quantify and explain what can be learned from data in spite of having to acknowledge our uncertainty in the process.

While much of my own research has been theoretically oriented, I have been motivated by a desire to develop practical statistical methodology in order to construct techniques that may be applied safely in practice. I have been particularly interested in advancing "nonparametric" techniques that do not rely on the statistician having to invoke unverifiable assumptions. In my work, I have tried to explore the extent of applicability of bootstrap, subsampling, and other resampling methods, as well as understanding their limitations.

In recent years, I have been interested in developing new methods for multiple testing and multivariate inference, especially driven by the availability of massive data sets. For example current methods in biotechnology generate ultra high throughput data, where expression levels in tens of thousands of genes or SNP data with hundreds of thousands of locations must be analyzed simultaneously. Multiple testing methods can be used to understand the hidden structure in the data rather than random artifacts (due to "data snooping"). In addition, the analysis of data is complicated by large number of features with unknown dependence structures, heterogeneity, model fitting, high dimensionality and other unknown sources of variation. The statistician is then faced with the challenge of accounting for all possible errors resulting from a complex data analysis, so that any resulting inferences or interesting conclusions can reliably be viewed as real structure (and is reproducible).

or has predictive power). Thus, my goals are the development of universal statistical tools that can be applied to such diverse fields as econometrics, climate science, genetics, clinical trials, finance, education, etc. The many burgeoning fields of applications demand new statistical methods, creating exciting opportunities for statisticians and data scientists.

## **ACADEMIC APPOINTMENTS**

- Professor, Statistics
- Professor, Economics

## **ADMINISTRATIVE APPOINTMENTS**

- Assistant Professor, Department of Statistics, Stanford University, (1986-1994)
- Associate Professor, Department of Statistics, Stanford University, (1994-2000)
- Full Professorship in Statistics, Stanford University, (2000- present)
- Joint Professorship, Stanford University, (2007- present)

## **HONORS AND AWARDS**

- 2021 LGBTQ+ Scientist of the Year, Out to Innovate (National Organization of Gay and Lesbian Scientists and Technical Professionals) (2021)
- Fellow, International Association of Applied Econometrics (2020)
- Computer-intensive Inference with Applications to Social Sciences, National Science Foundation Grant (July 2020-June 2023)
- Randomization Inference for Contemporary Problems in Statistics, National Science Foundation Research Grant (July 2013-June 2016)
- Multiple Problems in Multiple Testing and Simultaneous Inference, National Science Foundation Research Grant (July 2010 - June 2013)
- New Methodology for Multiple Testing and Simultaneous Inference, National Science Foundation Research Grant (July 2007 - June 2010)
- Theory and Methods for Multiple Testing and Inference, National Science Foundation Research Grant (July 2004 - June 2007)
- Approximate and Exact Inference Via Computer Intensive Methods, National Science Foundation Research Grant (July 2001 - June 2004)
- Computer-Intensive Methods for the Statistical Analysis of Dependent Data, National Science Foundation Research Grant (September 1997 - August 2000)
- Fellow, Institute of Mathematical Statistics (2000)
- Computer Intensive Methods for the Statistical Analysis of Time Series and Random Fields, National Science Foundation Research Grant (September 1994 - August 1997)
- Presidential Young Investigator Award, National Science Foundation (1989-1994)
- The Canadian Journal of Statistics Award, Statistical Society of Canada (1989)
- Postdoctoral Fellowship, National Science Foundation (1986-1988)
- Graduate Fellowship, National Science Foundation (1982-1984)
- Collegiate Award, Northern New Jersey Chapter of the American Statistical Association (1982)
- Graduated Summa Cum Laude in Statistics, Princeton University (1982)
- Member, Phi Beta Kappa Society (1982)

## **BOARDS, ADVISORY COMMITTEES, PROFESSIONAL ORGANIZATIONS**

- Fellow, Institute of Mathematical Statistics
- Grant Proposal Reviewer, National Security Agency Mathematical Sciences Program
- Grant Proposal Reviewer, National Science Foundation
- Grant Proposal Reviewer, Natural Science and Engineering Research Council of Canada
- Member, American Statistical Association
- Referee, Algorithmic Learning Theory

- Referee, Biometrics
- Referee, Journal of Statistical Planning and Inference
- Referee, Journal of Statistical Computation and Simulation
- Referee, The Scandinavian Journal of Statistics
- Referee, Journal of Econometrics
- Referee, British Journal of Mathematical and Statistical Psychology
- Referee, Statistical Science
- Referee, Biometrika
- Referee, The American Statistician
- Referee, Journal of the Italian Statistical Society
- Referee, Transactions on Signal Processing
- Referee, Technometrics
- Referee, Proceedings of the American Mathematical Society
- Referee, Communications in Statistics
- Referee, Journal of the American Statistical Association
- Referee, Bernoulli
- Referee, Journal of the Royal Statistical Association
- Referee, The British Journal of Mathematical and Statistical Psychology
- Referee, Statistica Sinica
- Referee, Journal of Time Series Analysis
- Referee, Psychometrika
- Referee, Annals of Probability
- Referee, Econometrica
- Referee, International Statistical Review
- Referee, Annals of Statistics
- Referee, Annals of the Institute of Statistical Mathematics
- Referee, The Canadian Journal of Statistics
- Referee, The Journal of Nonparametric Statistics
- Fellow, International Association of Applied Econometrics (2020 - present)
- Associate Chairman, Stanford University (2013 - 2014)
- Chair of Qualifying Exams, Stanford University (2012 - 2013)
- Master's Advisor, Stanford University (2012 - 2013)
- Member, Ph.D. Admissions Committee, Stanford University (2011 - 2012)
- Chair of Qualifying Exams, Stanford University (2010 - 2011)
- Advisor to Master's Degree Students, Stanford University (2009 - 2010)
- Advisor to Master's Degree Students, Stanford University (2008 - 2009)
- Member, Faculty Affairs Committee, Stanford University (2008 - 2009)
- Chair of Committee on Faculty Affairs, Stanford University (2007 - 2008)
- Vice Chairman of the Department of Statistics, Stanford University (2007 - 2008)

- Vice Chairman, Noether Award Committee, American Statistical Association (2007 - 2007)
- Member, Noether Award Committee, American Statistical Association (2006 - 2011)
- Associate Editor, The Annals of Applied Statistics (2006 - 2010)
- Master's Degree Advisor, Stanford University (2006 - 2007)
- Member, Committee on Faculty Affairs, Stanford University (2006 - 2007)
- Master's Degree Advisor, Stanford University (2005 - 2006)
- Member, Ph.D. Admissions Committee, Stanford University (2005 - 2006)
- Advisor to all students in the Master's Degree and Ph.D. Minor Programs, Stanford University (2004 - 2005)
- Chair of Qualifying Exam Committee, Stanford University (2004 - 2005)
- Member, Grant Proposal Panel, National Science Foundation (2004 - 2004)
- Advisor to all students in the Master's Degree and Ph.D. Minor Programs, Stanford University (2002 - 2004)
- Associate Editor, The Annals of Statistics (2001 - 2004)
- Chair of the Qualifying Exam Committee, Stanford University (2001 - 2002)
- Member, Ph.D. Program Committee, Stanford University (2001 - 2002)
- Chair of Qualifying Exam Committee, Stanford University (2000 - 2001)
- Member, Judicial Panel, Stanford University (2000 - 2001)
- Ph.D. advisor to first and second year Ph.D. students, Stanford University (1999 - 2000)
- Chair of Qualifying Exam Committee, Stanford University (1998 - 1999)
- Ph.D. advisor to first and second year Ph.D. students, Stanford University (1998 - 1999)
- Chair of Student Selection Committee, Stanford University (1997 - 1998)
- Ph.D. advisor to first and second year Ph.D. students, Stanford University (1997 - 1998)
- Chair of Contributed Papers, Annual Meeting of the Institute of Mathematical Statistics (1997 - 1997)
- Associate Editor, The Journal of Statistical Planning and Inference (1996 - 1999)
- Ph.D. advisor to to first and second year Ph.D. students, Stanford University (1996 - 1997)
- Advisor to Ph.D students without thesis advisors, Stanford University (1995 - 1996)
- Member, Search Committee, Stanford University (1995 - 1996)
- First Year Ph.D. Student Advisor, Stanford University (1994 - 1995)
- Qualifying Exam Advisor, Stanford University (1994 - 1995)
- Member, Ph.D. Exam Committee, Stanford University (1993 - 1994)
- Ph.D. Student Advisor, Stanford University (1992 - 1993)
- Masters Student Advisor, Stanford University (1991 - 1992)
- Member, Ph.D. Exam Committee, Stanford University (1991 - 1992)
- Member, Affirmative Action Committee, Stanford University (1990 - 1991)
- Member, Ph.D. Exam Committee, Stanford University (1990 - 1991)
- Masters Student Advisor, Stanford University (1989 - 1990)
- Member, Ph.D. Exam Committee, Stanford University (1989 - 1990)
- Ph.D. Student Selection, Stanford University (1989 - 1990)
- Member, Curriculum Committee, Stanford University (1988 - 1989)
- Masters Student Advisor, Stanford University (1987 - 1988)

- Seminar Chairperson, Ph.D. Exam Committee, Stanford University (1986 - 1987)

## PROFESSIONAL EDUCATION

- Ph.D., University of California, Berkeley (1986)
- M.S., University of California, Berkeley (1983)
- A.B., Princeton University (1982)

## Research & Scholarship

---

### CURRENT RESEARCH AND SCHOLARLY INTERESTS

Work in progress is described under "Projects"

### PROJECTS

- Control of directional errors in fixed sequence multiple testing (with Anjana Grandhi and Wenge Guo)
- Testing for differences between random processes in sample-starved regimes (with Bala Rajaratnam and Michael Tsiang)
- Randomization tests under an approximate symmetry assumption (with Ivan Canay and Azeem Shaikh)
- Improved weighted least squares inference (with Cyrus DiCiccio and Michael Wolf)
- Analysis of error control in large scale two stage multiple testing (with Wenge Guo)

## Teaching

---

### COURSES

#### 2021-22

- Econometric Methods I: MGTECON 603 (Aut)
- Econometrics Workshop: ECON 370 (Aut, Win, Spr)
- Intermediate Econometrics I: ECON 270 (Aut)
- Introduction to Statistical Inference: STATS 200 (Aut)
- Statistical Methods in Engineering and the Physical Sciences: STATS 110 (Spr)

#### 2020-21

- Advanced Econometrics II: ECON 274 (Spr)
- Econometrics Workshop: ECON 370 (Aut, Win, Spr)
- Intermediate Econometrics I: ECON 270 (Aut)
- Introduction to Statistical Inference: STATS 200 (Aut)

#### 2019-20

- Econometrics Workshop: ECON 370 (Aut, Win, Spr)
- Intermediate Econometrics I: ECON 270 (Aut)
- Theory of Statistics III: STATS 300C (Spr)

#### 2018-19

- Econometrics Workshop: ECON 370 (Aut, Win, Spr)
- Intermediate Econometrics I: ECON 270 (Aut)
- Literature of Statistics: STATS 319 (Aut)
- Theory of Statistics III: STATS 300C (Spr)

## STANFORD ADVISEES

### Doctoral Dissertation Reader (AC)

Kevin Guo

### Doctoral Dissertation Advisor (AC)

Marius Tirlea

### Doctoral (Program)

Zhaomeng Chen, John Cherian, David Fager, Paula Gablenz, Disha Ghandwani, Xavier Gonzalez, Will Hartog, Michael Howes, Amber Hu, Yujin Jeong, Rahul Raphael Kanekar, Harrison Li, Sophia Lu, Matthew MacKay, Tim Morrison, Debolina Paul, Anav Sood, Asher Spector, Timothy Sudijono, Ian Christopher Tanoh, Ran Xie, James Yang, Julie Zhang
