

## Jennifer Schwartz Poehlmann

Senior Lecturer of Chemistry

 Curriculum Vitae available Online

### Bio

---

#### BIO

Reaching out to Stanford's diverse body of students and beyond to share the excitement of scientific discovery has been a growing passion for Dr. Jennifer Schwartz Poehlmann. In addition to coordinating and co-teaching Stanford's freshmen chemistry sequence, she takes a leadership role in developing training programs for teaching assistants and enhancing classroom and lab experiences for undergraduates, while also providing STEM learning opportunities for incoming freshmen and local high school students.

Jennifer Schwartz Poehlmann studied chemistry at Washington University in Saint Louis Missouri (A.B. 2002) before coming to Stanford University as a graduate student (Ph.D. 2008). Her thesis work under Prof. Edward Solomon addressed structural contributions to reactivity in active sites of non-heme di-iron enzymes, including ferritins. She joined the Stanford Center (now Vice Provost) for Teaching and Learning as a Teaching Fellow in 2008. In 2009, she became Lecturer and Introductory Course Coordinator for the Department of Chemistry, and in 2011 was promoted to Senior Lecturer. She has received multiple awards for her teaching and training work, including the Walter J. Gores Award for Excellence in Teaching, Dean's Award for Achievements in Teaching, Hoagland Award Fund for Innovations in Undergraduate Teaching, and Society of Latino Engineers and School of Engineering's Professor of the Year Award.

#### Teaching

Dr. Schwartz coordinates and co-teaches the introductory course sequence of Chem31A, 31B, and 33 for about 450 students each year. She has also created a set of companion courses (Chem31A-C, 31B-C, and 33-C) designed to provide motivated students an opportunity to build stronger study habits and problem solving tools that help them persevere in the sciences regardless of prior science background. In parallel, she has been involved in the creation and teaching of the Leland Scholars Program, which facilitates the transition to college for incoming freshman intending to study in STEM or pre-health fields.

#### Instructor Training

Dr. Schwartz has always believed that well-prepared and enthusiastic teachers inspire and motivate learning, yet excellent teaching requires training, feedback, reflection and support. She has worked both within the department and more broadly to help ensure that teaching assistants throughout the university receive the training, practice and mentorship they need to grow and excel as educators. She previously directed the Department of Chemistry's TA Training program and, with the Vice Provost for Teaching and Learning, co-founded and directs the Mentors in Teaching Program, MinT, which provides training and resources to teaching mentors from more than 15 departments on campus. Through MinT, advanced graduate students learn effective ways to mentor TAs, through mid-quarter feedback, classroom observation, establishment of teaching goals, and workshops that enable new TAs to better engage with students in the classroom.

#### Enhanced Learning Experiences

Dr. Schwartz has been heavily involved in the development of hands-on, guided-inquiry lab activities that are now fully integrated into lab/lecture courses throughout the introductory general and organic chemistry sequence. Through the "Inspiring Future Scientists in Chemistry" Outreach Program, she is also helping to bring the excitement of exploring real-world chemistry into local high schools. She works with local high school teachers to design lab experiences that reinforce and compliment the chemistry concepts in the California State curriculum. Stanford Chemistry students take these activities to local high schools, providing hundreds of students the opportunity to work with enthusiastic young scientists while getting hands-on experience in chemistry. The program aims to demonstrate how chemistry relates to the 'real world' and to promote an appreciation for both science and higher education.

## **ACADEMIC APPOINTMENTS**

- Senior Lecturer, Chemistry

## **ADMINISTRATIVE APPOINTMENTS**

- Senior Lecturer & Introductory Course Coordinator, Stanford University, (2011- present)
- Lecturer & Introductory Course Coordinator, Stanford University, (2009-2011)
- Teaching Fellow, Center for Teaching and Learning, Stanford University, (2008- present)
- Consultant, Center for Teaching and Learning, Stanford University, (2005-2008)
- Senior Development and Documentation Teaching Assistant, Stanford University, (2004-2007)
- Graduate Research Assistant, Stanford University, (2003-2008)
- Lab Safety Officer, Stanford University, (2003-2008)
- Outreach TA, Stanford University, (2003-2005)
- Research Assistant, Washington University in St. Louis, (2001-2002)
- Summer School Administrator, Elmbrook School District, (2000-2001)
- Board Member, Education for Employment Council Board, Elmbrook District, (1998-1999)

## **HONORS AND AWARDS**

- Professor of the Year, Society of Latino Engineers (SOLE) and the School of Engineering (2014)
- H&S Dean's Award for Achievements in Teaching, Stanford University (2012)
- Hoagland Award Fund for Innovations in Undergraduate Teaching, Stanford University (2011-2013)
- Dr. St. Clair Drake Teaching Award, Stanford University (2011)
- Honored as one of the "Heroes Among Us", Blue Oak Elementary School (2010)
- Walter J. Gores Award for Excellence in Teaching, Stanford University (2008)
- Linus Pauling Teaching Award, Stanford University, Department of Chemistry (2007)
- Centennial Teaching Award for excellence in teaching, Stanford University (2004)
- Honor, Phi Beta Kappa (2002)

## **BOARDS, ADVISORY COMMITTEES, PROFESSIONAL ORGANIZATIONS**

- Operations Committee for The Science Teaching and Learning Center, Stanford School of Humanities and Sciences (2013 - present)
- Curriculum Committee, Stanford Chemistry Department (2012 - present)
- Leland Scholars Program Advisory Board Member, Stanford Vice Provost for Undergraduate Education (2012 - present)
- Old Chemistry Design team, Stanford School of Humanities and Sciences (2012 - present)
- Undergraduate Studies Committee, Stanford Chemistry Department (2010 - 2012)
- Director of IFS, Inspiring Future Scientists in Chemistry (2009 - present)
- Admissions Interviewer, Alumni & Parents Admission Program for Washington University in St. Louis (2006 - 2007)

- Member, American Chemical Society (2002 - present)
- Member, Alpha Chi Sigma (2001 - present)
- Vice President, Women in Science (2001 - 2002)
- Secretary, Women in Science (2000 - 2001)
- VP, Membership, Alpha Phi Omega (2000 - 2001)
- Member, Alpha Phi Omega (1999 - present)
- VP, Service, Alpha Phi Omega (1999 - 2002)
- Violist, Washington University Quartet (1999 - 2002)
- Violist, Washington University Chamber and Symphony Orchestra (1999 - 2002)
- VP, Fellowship, Alpha Phi Omega (1999 - 1999)
- Member, National Forensics League (1997 - 1999)

## PROFESSIONAL EDUCATION

- PhD, Stanford University , Inorganic Chemistry (2008)
- BA, Washington University , Chemistry (2002)

## Teaching

---

### COURSES

#### 2017-18

- Chemical Principles I: CHEM 31A (Aut)
- Chemical Principles II: CHEM 31B (Win)
- Exploring Research and Problem Solving Across the Sciences: CHEM 10 (Aut)
- Organic Chemistry Lab I: CHEM 1L (Sum)
- Teaching of Chemistry: CHEM 299 (Aut, Win)
- The Chemical Principles of Life II: CHEM 143 (Spr)

#### 2016-17

- Chemical Principles I: CHEM 31A (Aut)
- Chemical Principles II: CHEM 31B (Win)
- Exploring Research and Problem Solving Across the Sciences: CHEM 10 (Aut)
- Organic Chemistry Lab I: CHEM 1L (Sum)
- Problem Solving in Science: CHEM 31AC (Aut)
- Problem Solving in Science: CHEM 31BC (Win)
- The Chemical Principles of Life II: CHEM 143 (Spr)

#### 2015-16

- Chemical Principles I: CHEM 31A (Aut)
- Chemical Principles II: CHEM 31B (Win)
- Exploring Research and Problem Solving Across the Sciences: CHEM 10 (Aut)
- Introduction to Organic Chemistry Lab: CHEM 1L (Sum)
- Problem Solving in Science: CHEM 31AC (Aut)
- Problem Solving in Science: CHEM 31BC (Win)

## 2014-15

- Chemical Principles I: CHEM 31A (Aut)
- Chemical Principles II: CHEM 31B (Win)
- Exploring Research and Problem Solving Across the Sciences: CHEM 10 (Aut)
- Problem Solving in Science: CHEM 31AC (Aut)
- Problem Solving in Science: CHEM 31BC (Win)
- Problem Solving in Science: CHEM 33C (Spr)
- Structure and Reactivity: CHEM 33 (Spr)

## PRESENTATIONS

- Web Resource: Dissemination of Chemistry Guided Inquiry Lab Materials - K-12 teachers and high-school students interested in research
- Web Resource: Setting the Stage for the Class - Consortium to Promote Reflection in Engineering Education (January 2016)
- Web Resource: Mentors in Teaching (MinT) Program
- Web Resource: Grad Teaching @Stanford
- News Article: Pre-ed group brings together esteemed faculty to share personal stories of teaching careers - The Stanford Daily (November 21, 2014)
- Blog Post: So many questions, so little time: A Stanford Chemistry Professor on how Piazza increases participation and efficiency - Piazza Professors Blog
- Blog Post: New Approaches to Exam Prep at Stanford: Making the Practice Test Count - Stanford Teaching Commons (April 7, 2014)
- Blog Post: Getting it Right: What's Working in TA Training? - Stanford Teaching Commons (May 23, 2013)
- Poster: Leveling the Playing Field in Large Lecture Courses - Stanford Gallery Walk, Kick-Off to Year of Learning (October 2, 2015)
- Presentation: Inspiring future scientists in chemistry: Leveraging resources that bring together high school and graduate students as well as teachers - American Chemical Society 248th National Meeting (August 2014)
- Presentation: Why failure is so important to learning and science - and how to succeed because of it! - First annual Stanford Pre-Collegiate Science Conference (March 15, 2014)
- Panel Discussion: Aligning University Expectations with High School Instruction - American Chemical Society Western Regional Meeting (October 3, 2013 - October 6, 2013)
- Presentation: Introducing Stanford Freshman to Science Writing through Calibrated Peer Review - Biennial Conference on Chemical Education (July 29, 2012 - August 2, 2012)
- Keynote: Becoming a Scientist - Stanford Society of Women Engineers Exploring New Worlds Conference (May 5, 2012)
- Talk: Strategies for Teaching Assistant Training and Support during Implementation of Process-Oriented Guided Inquiry Learning . . . - American Chemical Society 231st National Meeting & Exposition (March 26, 2006 - March 30, 2006)
