

Victoria (Tori) Arendt

- Affiliate, Dean's Office Operations - Dean Other
- Resident in Radiology

Bio

BIO

Tori grew up in Cleveland, Ohio and attended Duke University, where she majored in Biology and minored in Computer Science. After graduation, she moved to San Diego, where she worked at a biotechnology company researching stabilization of blood products at room temperature. In 2014, she moved to Palo Alto and began medical school at Stanford. During medical school, she worked with Dr. Rusty Hofmann in interventional radiology researching best practices in venous interventions, leading to multiple publications and presentations at SIR. After graduating from medical school in 2018, she began her general surgery intern year at the Cleveland Clinic and after a year in Cleveland, she returned to the California sunshine to begin radiology residency in July 2019. Tori continues to be active in her research into the treatment of venous disease. Outside of residency, she also enjoys hiking around northern California, traveling the world, running, and reading all types of books.
