## Brendan Carvalho

Professor of Anesthesiology, Perioperative and Pain Medicine (Adult MSD) and, by courtesy, of Obstetrics and Gynecology (Maternal Fetal Medicine)

NIH Biosketch available Online

Curriculum Vitae available Online

### CLINICAL OFFICE (PRIMARY)

- Dept of Anesthesia

300 Pasteur Dr Rm H3586

MC 5640

Stanford, CA 94305

Tel (650) 724-2614

Fax (650) 725-8544

### Bio

---

#### BIO

Dr. Carvalho is the Chief of Obstetric Anesthesiology and Maternal Health, Vice Chair of Faculty Development, and Professor in the Department of Anesthesiology, Perioperative and Pain Medicine, Stanford University Medical Center. He is the Past President of the Society of Obstetric Anesthesia and Perinatology (SOAP), and founder the SOAP Center of Excellence for Obstetric Anesthesia Care Designation. He has published extensively in the field of Obstetric Anesthesia with over 350 peer-reviewed articles, editorials, reviews, book chapters and commentaries. He has received several NIH, pharmaceutical and institutional grants, and won numerous research awards including three Best Research Papers at SOAP scientific meetings. Dr. Carvalho has won both the early and late-career Teacher of the Year awards at SOAP, and was voted Teacher of the Year at Stanford University's Departments of Anesthesia. He has presented at over 220 regional, national and international meetings and visiting professorships. He serves/has served on numerous national medical society committees and medical journal editorial boards, and as an advisor/consultant to the World Health Organization. His clinical and translational research and scholarly activities cover cesarean and labor analgesia, perinatal pharmacology and immunology, obstetric hemorrhage, and postpartum recovery.

#### CLINICAL FOCUS

- Anesthesia
- Anesthesia, Obstetrical
- Anesthesia, Regional

#### ACADEMIC APPOINTMENTS

- Professor - University Medical Line, Anesthesiology, Perioperative and Pain Medicine
- Professor - University Medical Line (By courtesy), Obstetrics & Gynecology - Maternal Fetal Medicine
- Member, Maternal & Child Health Research Institute (MCHRI)

#### ADMINISTRATIVE APPOINTMENTS

- Chief, Division of Obstetric Anesthesia, (2013- present)

## PROFESSIONAL EDUCATION

- Board Certification: Anesthesia, American Board of Anesthesiology (2014)
- Fellowship, Stanford University , Obstetric Anesthesia (2002)
- Residency: Southwest School of Anesthesia (2001) England
- Internship: Groote Schuur Hospital (1995) South Africa
- Medical Education: University of Witwatersrand (1994) South Africa

## Research & Scholarship

---

### CURRENT RESEARCH AND SCHOLARLY INTERESTS

I have completed research in a number of important areas in obstetric anesthesia including: optimizing neuraxial techniques for labor and cesarean analgesia; predicting individual labor and cesarean pain and analgesic needs; evaluating pregnancy-induced and hormonal changes in pain perception; determining the role of cytokines and other biochemical mediators in incisional wounds; evaluating local anesthetic potency and anesthetic requirements during labor and cesarean delivery; determining epidural and spinal opioid applications and the role of long-acting neuraxial opioids in obstetric pain management; investigating peripartum hemostatic and coagulation changes; conducting cost-analyses of various obstetric anesthesia practices; optimizing the management of maternal cardiac arrest and other obstetrical emergencies; determining patient attitudes and ethnic preferences towards obstetric analgesia; determining the efficacy of peripheral wound drug administration; and pharmacokinetics/pharmacodynamics of drugs administered to pregnant women. My current area of research focus is in developing novel ways of improving post-cesarean and peripartum labor pain management, and developing detailed pharmacokinetics/pharmacodynamics models of key antenatal medications.

### CLINICAL TRIALS

- Virtual Reality Compared to Nitrous Oxide for Labor Analgesia, Recruiting
- Calcium Chloride for Prevention of Uterine Atony During Cesarean, Not Recruiting
- Pharmacokinetic (PK) and Pharmacodynamic (PD) Modeling of Ampicillin and Gentamicin in Peripartum Patients, Not Recruiting

## Publications

---

### PUBLICATIONS

- **Continuous wound infusion catheter as part of a multimodal analgesia regimen for post-Caesarean delivery pain: a quality improvement impact study.** *BJA open*  
Fowler, C., Stockert, E., Hoang, D., Guo, N., Riley, E., Sultan, P., Carvalho, B.  
2024; 9: 100242
- **Ethnicity, socio-economic deprivation and postpartum outcomes following caesarean delivery: a multicentre cohort study.** *Anaesthesia*  
O'Carroll, J. E., Zucco, L., Warwick, E., Radcliffe, G., Moonasinghe, S. R., El-Boghdady, K., Guo, N., Carvalho, B., Sultan, P.  
2024
- **A Cost and Waste-Savings Comparison Between Single-Use and Reusable Pulse Oximetry Sensors Across US Operating Rooms.** *Anesthesia and analgesia*  
Stockert, E. W., Carvalho, B., Sun, E. C.  
2024
- **The Accuracy of ChatGPT-Generated Responses in Answering Commonly Asked Patient Questions About Labor Epidurals: A Survey-Based Study.** *Anesthesia and analgesia*  
Mootz, A. A., Carvalho, B., Sultan, P., Nguyen, T. P., Reale, S. C.
