BIO

Dr. Honkanen joined the Stanford Faculty in 2003 in the Division of Pediatric Anesthesiology. She was the Chief of the Division from 2006 through 2019, and splits her time between clinical care, administrative duties, teaching, and research. She helped develop the in-situ pediatric simulation models used at LPCH and now at other institutions, and assists with MOCA simulation courses for ABA recertification. She is currently the Associate Dean of Wellness and Student Life Advising in the Stanford University School of Medicine. Her current research interests relate to physician, trainee, and student wellness.
