#### BIO

Dr. Hauser leads the Medical Weight Loss Program in the Stanford Bariatric Surgery and Medical Weight Loss Clinic. She is a board-certified specialist in internal medicine, and lifestyle medicine. She also holds the position of Clinical Associate Professor of Medicine, General Surgery and, by courtesy, Primary Care and Population Health.

Beyond delivering patient care and medical education, Dr. Hauser is a prevention researcher and Le Cordon Bleu-trained chef. She combines her skills to help patients move away from lifestyles that lead to chronic disease and toward those that promote health and well-being.

Dr. Hauser develops and runs lifestyle and medical weight management programs that combine evidence-based, non-surgical treatment modalities, which can be used alone or as an adjunct to bariatric surgery procedures. She provides screening, prevention strategies, and treatment for conditions including hyperlipidemia, diabetes, fatty liver disease, cardiovascular disease and other metabolic diseases. As a chef, she recognizes the importance of enjoying food, so she incorporates cooking classes into her clinical practice to teach patients how to make delicious food that is also healthy in support of their short- and long-term health goals.

In her academic initiatives, Dr. Hauser has created and evaluated a novel medical weight management program for Veterans. It combines lifestyle medicine-enriched shared medical appointments and telehealth follow-up. She was a primary investigator of a Stanford study of food insecurity screening and referral to healthy food resources. She was also the project lead on a study of the impact of diet quality and type on weight loss and cardiovascular risk factors.

Dr. Hauser wrote the first comprehensive Culinary Medicine Curriculum for health care professional training programs, now in use in more than 100 countries. She has co-authored numerous articles published in peer-reviewed journals such as JAMA, American Journal of Lifestyle Medicine, and American Journal of Clinical Nutrition. Topics address new strategies to improve nutrition, physical activity, and weight loss.

She has made invited presentations on obesity management, culinary medicine, and shared medical appointments at the American College of Lifestyle Medicine Annual Conference, Society for General Internal Medicine Annual Conference, and other meetings.

The Lifestyle Medicine Education Collaborative recognized Dr. Hauser as a “Champion for Change” for developing innovative programs to incorporate lifestyle medicine into medical education. Other honors include the Leonard Tow Humanism in Medicine Award from the Arnold P. Gold Foundation and Harvard Medical School.

Dr. Hauser is a fellow of the American College of Physicians and of the American College of Lifestyle Medicine, where she previously served on the Board of Directors.

## **CLINICAL FOCUS**

- Internal Medicine
- Obesity Medicine
- Lifestyle Medicine

## **ACADEMIC APPOINTMENTS**

- Clinical Associate Professor, Surgery - General Surgery

## **HONORS AND AWARDS**

- Zuckerman Fellow, Center for Public Leadership, Harvard Kennedy School of Government (2009-2010)
- Letter of Achievement in Leadership, Center for Public Leadership, Harvard Kennedy School of Government (2011)
- Leonard Tow Humanism in Medicine Award, Gold Foundation (2011)
- Cambridge Integrated Clerkship Teaching Award, Cambridge Health Alliance, Cambridge, MA (2013)
- Food Hero, Honorable Mention, City of Cambridge, Massachusetts (2013)
- San Mateo Medical Center Above & Beyond Award, San Mateo Medical Center (2017)

## **BOARDS, ADVISORY COMMITTEES, PROFESSIONAL ORGANIZATIONS**

- Board of Directors, American College of Lifestyle Medicine (2015 - present)
- Member, American College of Lifestyle Medicine (2014 - present)
- Member, American College of Physicians (2012 - present)
- Member, Society of General Internal Medicine (2013 - present)

## **PROFESSIONAL EDUCATION**

- Board Certification: Lifestyle Medicine, American Board of Lifestyle Medicine (2020)
- Board Certification: Internal Medicine, American Board of Internal Medicine (2014)

- Residency: Cambridge Health Alliance Internal Medicine Residency (2014) MA
- Medical Education: Harvard Medical School (2011) MA
- Fellow, American College of Lifestyle Medicine , Lifestyle Medicine (2017)
- Residency, Cambridge Health Alliance-Harvard Medical School , Internal Medicine (2014)
- MD, Harvard Medical School (2011)
- MPA, Harvard Kennedy School of Government , Public Policy, Public Administration (2011)
- BS, Humboldt State University , Cellular/Molecular Biology, Chemistry (2006)
- Diplôme, Le Cordon Bleu , Culinary Arts (2001)

## Research & Scholarship

---

### CURRENT RESEARCH AND SCHOLARLY INTERESTS

Dr. Michelle Hauser, MD, MS, MPA, FACLM, Chef is board certified in internal medicine and completed medical school, internal medicine residency, and a Master of Public Policy and Administration degree at Harvard, as well as a Master of Science in Epidemiology and Clinical Research at Stanford. She is also a certified chef via Le Cordon Bleu and serves on the Board of Directors for the American College of Lifestyle Medicine where she is also a Fellow. At Stanford University School of Medicine, she is a Postdoctoral Research Fellow in Cardiovascular Disease Prevention and teaches nutrition and culinary medicine to medical students. She practices primary care for the County of San Mateo at Fair Oaks Health Center, a safety-net clinic in Redwood City, where she is also a teaching attending for Stanford Internal Medicine residents. Additional clinical responsibilities include developing obesity medicine group visits for the Palo Alto Veteran's Affairs Health Care System and teaching medical students and residents about obesity medicine. Her research blends her training in medicine, public policy, nutrition, and culinary arts to focus on improving education and access to delicious, healthy food for medical professionals and the general public, including those who are underserved. Current research topics include: community-based participatory research (CBPR) utilizing lifestyle change interventions and technology for those in underserved communities with, or at risk of, diabetes, cardiovascular disease and obesity; food insecurity; food literacy; weight loss; diet quality; culinary medicine; lifestyle medicine; teaching nutrition and cooking skills; and medical education around lifestyle-based prevention topics.

## Teaching
