## Karen Matthys

Executive Director, DBDS, Department of Biomedical Data Science - Operations

### Bio

---

#### BIO

Business executive with experience at leading-edge high tech companies —from start-ups to Fortune 500's. Principal at Indigo Partners, a marketing and business strategy consulting firm, since 2001.

Previous roles include Lecturer at the Stanford Graduate School of Business, Director of Marketing Strategy at Cellular One wireless, and management positions at Apple Computer including responsibility for several Macintosh and peripheral product launches worldwide.

#### CURRENT ROLE AT STANFORD

As Executive Director of External Partners at ICME, I develop relationships with companies and national laboratories interested in computational mathematics, data science and visualization, machine learning and high performance computing. I am also an Innovation Partner at SRI International.

#### EDUCATION AND CERTIFICATIONS

- MBA, Stanford University, Graduate School of Business
- BS, Systems Engineering, University of Virginia
