

Prasanthi Govindarajan

Associate Professor of Emergency Medicine at the Stanford University Medical Center

CLINICAL OFFICES

- **Stanford Dept of Emergency Medicine**

500 Pasteur Dr

Stanford, CA 94305

Tel (650) 723-6576

Fax (650) 723-0121

ACADEMIC CONTACT INFORMATION

- **Alternate Contact**

Michael Vernon - Administrative Associate, EMS/Disaster and Wilderness Medicine

Email mjvernon@stanford.edu

Tel 6507212450

Bio

BIO

Dr. Govindarajan is a health services researcher with expertise in emergency medical services and healthcare systems. The goals of her research are to improve access to specialized centers for acute stroke care (thrombolysis-capable and thrombectomy-capable centers) through early detection of stroke in the prehospital setting. Following her widely-cited (initial work on stroke detection by emergency medical services, she received a career development award (K08 HS17965) from the Agency of Healthcare Research and Quality to study the impact of using a paramedic protocol that increased access to primary stroke centers in two California counties. The findings from this work has led to research on the effectiveness of two different stroke systems of care (single-tier and two-tier), using CMMS (Center for Medicare and Medicaid Services) database. This research is currently proceeding in collaboration with the S-SPIRE (Stanford -Surgery Policy Improvement Research and Education Center) and Center for Population Health Sciences (PHS). As part of this research, she is also collaborating with Stanford's Vision Lab and Clinical Excellence Research Center (CERC) to develop a stroke tool using artificial intelligence technology.

CLINICAL FOCUS

- Emergency Medicine
- Stroke
- Emergency Medical Services
- Health Services Research
- Neurologic emergencies

ACADEMIC APPOINTMENTS

- Associate Professor - Med Center Line, Emergency Medicine

HONORS AND AWARDS

- Certificate of Honor in Pathology, Madras Medical College (1994)
- David Frommer Award for Academic Excellence, Boston Medical Center (2005)
- Essential Core Teaching Award for "Inspirational Teaching." ("Danovic Case"), University of California, San Francisco (2008)

- Dean's Prize for Clinical and Translational research (Student: Benjamin Friedman), University of California, San Francisco (2012)
- Save of the Month, Emergency Med, Stanford University Medical Center (2017)
- Named "Top 50 Peer reviewer for 2018", Annals of Emergency Medicine, the premier journal in emergency medicine (2019)
- R01026207-01A1, Agency of Healthcare Research and Quality (AHRQ) Department of Health and Human Services (07/2019)

BOARDS, ADVISORY COMMITTEES, PROFESSIONAL ORGANIZATIONS

- Member, Society of Academic Emergency Medicine (2001 - present)
- Member, American Heart Association/American Stroke Association (2007 - present)
- Neurological Emergencies IG, SAEM (2014 - present)
- Member, Grants Committee, Society of Academic Emergency Medicine (2015 - 2016)

PROFESSIONAL EDUCATION

- Internship: Boston University School of Medicine (2002) MA
- Fellowship: University Of San Diego (2007) CA
- Fellowship, University of California San Diego , Emergency Medical Services (2007)
- Board Certification: Emergency Medicine, American Board of Emergency Medicine (2006)
- MAS, University of California-San Diego , Clinical Research (2007)
- Residency: Boston Medical Center (2005) MA
- Residency, Boston Medical Center , Emergency Medicine (2005)
- Internship, Boston University Medical Center , Medicine (2002)
- Medical Education: Madras Medical College and Government General Hospital (1997) India
- MBBS, Madras Medical College , Medicine (1997)

Research & Scholarship

CURRENT RESEARCH AND SCHOLARLY INTERESTS

My current research focuses on using large databases to understand the effect of state or county-wide public policy on health care outcomes (specifically stroke). Our team is also exploring how patient safety, effective and equitable care in acute stroke management can be achieved using technology.

PROJECTS

- Improving Field Assessment of Stroke - Stanford University and Woodside Fire Department
- Effect of a Stroke Bypass on Outcomes in a National Sample - Stanford University
- Effect of a two-tier stroke bypass on a thrombectomy rates - Stanford University, UCLA and County of Los Angeles Emergency Medical Services
- Variability in the physician management of suspected sub-arachnoid hemorrhage - Stanford University
