Jimmy Chen

Program Manager, SECA - Stanford Energy Corporate Affiliates, Precourt Institute for Energy

Bio

BIO

Jim Chen is responsible for developing and managing Stanford Energy 3.0 engagements for corporations and other organizations that have an interest in Stanford's research, faculty, and graduate students in energy and energy-related areas. He has a broad background in energy and technology, specializing in technology and product development. He has held technical positions at Lawrence Berkeley Labs, GTE Labs, and AT&T Bell Labs, and technology executive positions at both starts-ups and Fortune 500 companies, including FormFactor and Eaton. He received his PhD degree from MIT and his MS degree from the University of California, Berkeley both in materials science and engineering, and his BS degree from the University of California, Berkeley in electrical engineering.
