Jimmy Chen

Managing Director, SECA - Stanford Energy Corporate Affiliates, Precourt Institute for Energy

Bio

BIO

Jimmy Chen is responsible for developing and managing the Stanford Energy Corporate Affiliate (SECA) program, and establishing engagements for corporations and other organizations that have an interest in collaborating with Stanford on energy and energy-related research. As Managing Director of SECA, he serves as a Director for Stanford's Precourt Institute for Energy. Besides previously being the founding Managing Director for the Precourt Institute's Bits and Watts Initiative, he currently serves the Managing Director of the Stanford StorageX Initiative and is on the leadership team of the Stanford Hydrogen Focus Group.

He has a broad background in energy and technology, specializing in technology and product development. He has held technical positions at Lawrence Berkeley Labs, GTE Labs, and AT&T Bell Labs, and technology executive positions at both start-ups and Fortune 500 companies, including FormFactor and Eaton.

His teaching responsibilities include lecturing for Stanford's Materials Science & Engineering department, and launching a Hydrogen Seminar Course in Energy Resources Engineering. He received his PhD degree from MIT and his MS degree from the University of California, Berkeley both in materials science and engineering, and his BS degree from the University of California, Berkeley in electrical engineering.
