Bio

BIO

Dr. Mary T. Hawn is the Stanford Medicine Professor of Surgery and Chair of the Department of Surgery at Stanford University. Dr. Hawn, a native of Michigan, received her education and surgical training at the University of Michigan. Her clinical area of specialty is minimally invasive foregut surgery. Dr. Hawn is a funded health services researcher and her projects focus on quality measurement and policy in surgical populations. She is a Director for the American Board of Surgery and serves on the editorial board of Annals of Surgery, Journal of the American College of Surgeons, Journal of Gastrointestinal Surgery and the American Journal of Surgery. Dr. Hawn has several additional leadership roles in American Surgery including Chair of the American College of Surgeons Scientific Forum Committee and as a Trustee and Treasurer for the Surgical Society of the Alimentary Tract. She is the co-Editor of a new surgical textbook Operative Techniques in Surgery.

CLINICAL FOCUS

- General Surgery
- Gastroesophageal Reflux Disease
- Achalasia
- Hiatal Hernias
- Gallbladder Disease
- Hernias

ACADEMIC APPOINTMENTS

- Professor, Surgery

ADMINISTRATIVE APPOINTMENTS

- Professor and Chair, Department of Surgery, (2015- present)

HONORS AND AWARDS

- Distinguished Alumni of the Year, Department of Surgery, Oregon Health Sciences University (2016)
- Honor Society, Alpha Omega Alpha

BOARDS, ADVISORY COMMITTEES, PROFESSIONAL ORGANIZATIONS

- Director, American Board of Surgery (2015 - present)
- Treasurer, Surgical Society of the Alimentary Tract (2016 - present)
- Chair, Scientific Forum Committee, American College of Surgeons (2014 - present)
- Member, American Surgical Association
- Member, Society of Clinical Chairs

PROFESSIONAL EDUCATION

- Residency: University of Michigan Dept of Surgery (1998) MI
- Medical Education: University of Michigan School of Medicine (1991) MI
- Board Certification: General Surgery, American Board of Surgery (1999)
- Fellowship: Oregon Health and Science University (2001) OR United States of America
- M.P.H., University of Michigan School of Public Health , MPH Epidemiology (1996)
- M.D., University of Michigan Medical School (1991)
- B.S., University of Michigan , Biomedical Sciences (1987)

Research & Scholarship

CURRENT RESEARCH AND SCHOLARLY INTERESTS

My area of research is health services researcher focusing on surgical quality measurement and policy. I have a background and training in epidemiology coupled with my leadership roles in surgical quality measurement. My expertise and extensive experience in evaluation of surgical quality process and outcome linkage has impacted national policy and changed guidelines. We performed a comprehensive evaluation of the Surgical Care Improvement Project (SCIP) implementation using national VA data. Defining robust metrics of surgical quality that are actionable and can lead to sustained improvement in our field are of utmost importance. I also have experience with risk prediction modeling for surgical patients. Our Decision Support for Safer Surgery study developed models of real-time risk prediction for major complications and prospectively validated our models in patients and with expert surgeons. We were able to discern where computational risk prediction has added value and where it falls short. We currently have a national study investigating readmissions following major surgical procedures to identify opportunities for improving care and reducing costs.
