Bio

BIO

Dr. Mark received his medical degree from the University of Kansas and completed his residency in pediatrics at Children's Mercy Hospital in Kansas City, Missouri. He then completed a fellowship in pediatric pulmonary medicine at the University of Rochester, Rochester, New York. In 1984, Dr. Mark completed the first fellowship in Pediatric Integrative Medicine at the University of Arizona in 2001. He practices at Packard Children's Hospital where he utilizes non-pharmaceutical approaches with patients with chronic pulmonary disorders such as asthma and cystic fibrosis. He is interested in nutrition, lifestyle changes, exercise and mind/body approaches to healing in an effort to decrease dependence on medication and improve overall lung health.

Dr. Mark is the past Program Director for the Pediatric Pulmonary fellowship program, Co-Director for the Pediatric Integrative Medicine fellowship program and the Medical Director for the Coordinating and Optimizing Resources Effectively (CORE) Program at Packard Children's Hospital, Stanford University. This innovative program assists with care coordination and communication with all health care providers for children with complex medical needs. Dr. Mark is also the Chair of the Credentials Committee at Packard Children's Hospital.
