#### BIO

Dr. Lin specializes in the diagnosis and treatment of rheumatologic conditions such as rheumatoid arthritis, lupus, myositis, gout, and seronegative spondyloarthropathies. She received additional training in autoimmune skin diseases and has a special clinical and research interest for psoriasis/psoriatic arthritis, dermatomyositis, cutaneous lupus/systemic lupus. She leads a combined rheumatology-dermatology clinic with Dr. Matthew Lewis in the dermatology department to take care patients collaboratively. Dr. Lin is a graduate of USSONAR (Ultrasound School of North American Rheumatologists) program and performs diagnostic musculoskeletal ultrasound evaluation and interventions. In addition to her clinical work, she leads the quality improvement effort for the division and her most recent projects are focused on patient-reported outcome in rheumatoid arthritis and vaccinations for patients in the rheumatology clinic.
