Bio

BIO

Myriam Amsallem MD PhD is a cardiologist specialized in cardiac imaging. Co-director of the RV analytics group at Stanford and Associate Director of the Clinical Biomarker and Phenotype Core Laboratory (Stanford Cardiovascular Institute), she has an interest in heart failure, cardio immunology and early detection of pulmonary hypertension using imaging, circulating biomarkers and digital health. She is currently working on developing novel noninvasive strategies to detect pulmonary hypertension and heart failure, including deep learning analysis of Doppler signals and 4D flow MRI. She also leads several educational projects to improve the quality of imaging methodology.
