## Matthew C. Baker, MD MS

Assistant Professor of Medicine (Immunology and Rheumatology)

Medicine - Immunology & Rheumatology

### CLINICAL OFFICES

- **Immunology and Rheumatology Clinic**

900 Blake Wilbur Dr Rm W2081

2nd Fl

Stanford, CA 94305

**Tel** (650) 723-6961

**Fax** (650) 725-8418

### Bio

---

#### BIO

Dr. Baker is the Clinical Chief in the Division of Immunology and Rheumatology at Stanford University. He received his bachelor's degree from Pomona College, his medical degree from Harvard Medical School, and his master's degree in Epidemiology and Clinical Research from Stanford University. He completed his Internal Medicine residency at the Massachusetts General Hospital and his Rheumatology fellowship at Stanford University. Dr. Baker has established a clinical research program that is focused on clinical trials, epidemiological studies, and bench-to-bedside translational research. He has designed and led investigator-initiated and industry sponsored clinical trials with a focus on sarcoidosis, IgG4-related disease, and rheumatoid arthritis. In addition, he is the Co-Director of the Stanford Multidisciplinary Sarcoidosis Program and collaborates with other team members to advance sarcoidosis clinical care and research.

#### CLINICAL FOCUS

- Sarcoidosis
- IgG4-related disease
- Rheumatoid Arthritis
- Osteoarthritis
- Cardiac sarcoidosis
- Sjogren's syndrome
- Rheumatology

#### ACADEMIC APPOINTMENTS

- Assistant Professor - University Medical Line, Medicine - Immunology & Rheumatology

#### ADMINISTRATIVE APPOINTMENTS

- Clinical Chief, Division of Immunology and Rheumatology, Department of Medicine, Stanford University, (2020- present)

#### HONORS AND AWARDS

- Translational Research and Applied Medicine Award, Stanford University (9/1/18 - 9/1/19)

- KL2 Stanford Spectrum Mentored Career Development Award, National Institutes of Health (7/1/17 - 6/30/19)
- Scientist Development Award, Rheumatology Research Foundation (2/1/17 - 1/31/18)
- Distinguished Fellow Award, American College of Rheumatology (11/28/16)
- ACR/EULAR Exchange Program Award, American College of Rheumatology (6/12/17)
- Ruth L. Kirschstein National Research Service Award, National Institutes of Health (7/1/16 - 1/31/17)
- Bevra Hahn Distinguished Fellow Scholarship, California Rheumatology Alliance (5/24/16)

## PROFESSIONAL EDUCATION

- Board Certification: Rheumatology, American Board of Internal Medicine (2016)
- Board Certification: Internal Medicine, American Board of Internal Medicine (2014)
- Fellowship: Stanford University Rheumatology and Immunology Fellowship (2016) CA
- Residency: Massachusetts General Hospital Internal Medicine Residency (2014) MA
- M.S., Stanford University (2019)
- M.D., Harvard Medical School (2011)
- B.A., Pomona College (2004)

## Research & Scholarship

---

### CLINICAL TRIALS

- A Study of Inebilizumab Efficacy and Safety in IgG4- Related Disease, Recruiting
- A Study to Assess the Efficacy and Safety of Namilumab in Participants With Chronic Pulmonary Sarcoidosis, Recruiting
- A Study to Assess the Safety, Tolerability, and Efficacy of Namilumab in Participants With Active Cardiac Sarcoidosis, Recruiting
- Open Label Two-Arm Study to Evaluate Rilzabrutinib in IgG4-Related Disease Patients, Recruiting
- Zanubrutinib in Patients With IgG4-Related Disease, Recruiting
- A Crossover Study to Compare RAYOS to IR Prednisone to Improve Fatigue and Morning Symptoms for SLE, Not Recruiting
- A Study Comparing Upadacitinib (ABT-494) to Placebo in Participants With Active Psoriatic Arthritis Who Have a History of Inadequate Response to at Least One Biologic Disease Modifying Anti-Rheumatic Drug (bDMARD), Not Recruiting
- BAFF/IL-17 Bispecific Antibody Treatment in Subjects With Primary Sjogren's Syndrome, Not Recruiting
- Sarilumab in Patients With Glucocorticoid-Dependent Sarcoidosis, Not Recruiting
- Study to Evaluate Safety, Tolerability, and Efficacy of GS-5718 in Participants With Active Rheumatoid Arthritis Who Have an Inadequate Response to Disease-modifying Antirheumatic Drug(s) (bDMARDs) Treatment, Not Recruiting
- Study to Evaluate the Safety and Efficacy of Filgotinib and Lanraplenib in Adults With Lupus Membranous Nephropathy (LMN), Not Recruiting

### LAB AFFILIATIONS

- William Robinson, Robinson Lab (7/1/2015)

## Publications

---

### PUBLICATIONS

- **The Positive Predictive Value of a Very High Serum IgG4 Concentration for the Diagnosis of IgG4-Related Disease.** *The Journal of rheumatology*  
Baker, M. C., Cook, C., Fu, X., Perugino, C. A., Stone, J. H., Wallace, Z. S.  
2022

Kramer, D. B., Baker, M., Ransford, B., Molina-Markham, A., Stewart, Q., Fu, K., Reynolds, M. R.  
2012; 7 (7)
  - **Enhancement of DNA tumor vaccine efficacy by gene gun-mediated codelivery of threshold amounts of plasmid-encoded helper antigen** *BLOOD*  
Leitner, W. W., Baker, M. C., Berenberg, T. L., Lu, M. C., Yannie, P. J., Udey, M. C.  
2009; 113 (1): 37-45

## PRESENTATIONS

- IgG4-Related Disease: A Broad Overview and Current Concepts - Allergy, Asthma & Immunology Foundation of Northern California Annual Symposium (April 28, 2018)
- An Introduction to Autoimmunity and an Overview of Common Rheumatic Diseases - Stanford Center for Clinical Research, Stanford University (August 4, 2018)
- Cardiac Sarcoidosis: A Foundation for Sarcoidosis Research Webinar - Foundation for Sarcoidosis Research (February 19, 2021)
