Bio

BIO

Dr. Venkatasubramanian is a board certified neurologist, vascular neurologist and neurocritical care physician. She completed her residency training in internal medicine from India and neurology residency and stroke/neurocritical care fellowships at Stanford University Medical Center. She holds a Masters degree in Clinical Trials from University of London. She has been on faculty since 2007. Her primary focus is the clinical care of neurologically critically ill patients in the intensive care unit and patients with acute stroke and TIA in the inpatient stroke unit. In addition, she sees patients with stroke and neurovascular diseases in her stroke clinic as well as patients discharged from the neurological ICU. Her main interests are in brain hemorrhage, unusual and rare causes of stroke, cerebral venous thrombosis and anticoagulation management after strokes.

Her research focuses on the study of brain edema and tissue perfusion in intracerebral hemorrhage using novel MRI techniques and biomarkers. She is the Stanford principal investigator for several clinical trials in intracerebral hemorrhage. She is happily married and has two young boys. She enjoys cooking, yoga and coaching her son for spelling and geography bees.

CLINICAL FOCUS

- Neurocritical Care
- Stroke
- Traumatic Brain Injury
- Intracerebral Hemorrhage
- Vascular Neurology

ACADEMIC APPOINTMENTS

- Clinical Professor, Neurology & Neurological Sciences

HONORS AND AWARDS

- Gold Medal in Pathology, Indian Association of Pathologists and Microbiologists (1993)
- Gold Medal for "Best Outgoing Student in M.B.B.S", Indian Medical Association (1996)

- Gold Medal in Cardiology, Cardiological and Electrophysiological Society of India (1999)
- Fellowship Award for Clinical Research, Neurocritical Care Society (2005)

PROFESSIONAL EDUCATION

- Fellowship: Stanford University Vascular Neurology Fellowship (2006) CA
- Residency: Stanford University Neurology Residency (2005) CA
- Internship: Kaiser Permanente Santa Clara Internal Medicine Residency (2002) CA
- Board Certification: Neurocritical Care, United Council for Neurologic Subspecialties
- Residency: Coimbatore Medical College (1999) India
- Board Certification, American Society of Neuroimaging , Neurosonology (2010)
- Board Certification: Vascular Neurology, American Board of Psychiatry and Neurology (2008)
- Board Certification, United Council of Neurologic Subspecialties , Neurocritical Care (2007)
- Board Certification: Neurology, American Board of Psychiatry and Neurology (2007)
- Medical Education: Coimbatore Medical College (1999) India
- M.B.B.S., Dr MGR Medical University India , Medicine (1996)

Research & Scholarship

CURRENT RESEARCH AND SCHOLARLY INTERESTS

I care for neurologically critically ill patients in the intensive care unit and patients with acute stroke and TIA in the inpatient stroke unit. I also see outpatients in a stroke clinic and conduct follow-up of patients discharged from the neurological ICU, in the “Outcomes clinic”.

I am interested in the study of the radiological characteristics and temporal profile of edema/ tissue injury in the perihematomal area around spontaneous intracerebral hemorrhage. I am also interested in developing protocols for emergent reversal of anticoagulation in a life-threatening hemorrhage situation.

CLINICAL TRIALS

- Clot Lysis: Evaluating Accelerated Resolution of Intraventricular Hemorrhage Phase III, Recruiting
- High-Dose Deferoxamine in Intracerebral Hemorrhage, Recruiting
- Imaging Collaterals in Acute Stroke (iCAS), Recruiting
- Minimally Invasive Surgery Plus Rt-PA for ICH Evacuation Phase III, Recruiting
- Antihypertensive Treatment of Acute Cerebral Hemorrhage-II, Not Recruiting
- Computed Tomography Perfusion (CTP) to Predict Response to Recanalization in Ischemic Stroke Project (CRISP), Not Recruiting
- Efficacy and Safety Study of Desmoteplase to Treat Acute Ischemic Stroke (DIAS-4), Not Recruiting
- Efficacy and Safety Trial of Transcranial Laser Therapy Within 24 Hours From Stroke Onset (NEST-3), Not Recruiting
- Insulin Resistance Intervention After Stroke Trial, Not Recruiting
- Progesterone for the Treatment of Traumatic Brain Injury III, Not Recruiting
- Transient Ischemic Attack (TIA) Triage and Evaluation of Stroke Risk, Not Recruiting
