Bio

BIO

Riitta Katila is Professor of Management Science & Engineering and W.M. Keck Foundation Faculty Scholar at Stanford University, and a faculty member of the Stanford Technology Ventures Program. Her research is in the intersection of technology strategy and organizational learning. She is an expert on innovation, competition, and entrepreneurship in large firms.

Prof. Katila's research has received several international awards. She is Alfred P. Sloan Industry Studies Fellow and winner of the Schendel Prize by the Strategic Management Society in 2016. She was also recognized as the Top Young Strategy Scholar by the Strategic Management Society, an award that recognizes "exemplary scholarship that promises to have an impact on future strategic management practice...and will make fundamental contributions to the way we think about knowledge essential to achieving durable organizational success."

She received the Stephan M. Schrader Award for Outstanding Research in Technology and Innovation Management, the Thought Leader Award in Entrepreneurship, and the Best Symposium Award by the Organization and Management Theory Division of the Academy of Management. Her dissertation on industrial robotics firms and their innovation strategies using patents and new products received several recognitions, including the Best Dissertation Award from The Institute for Operations Research and the Management Sciences and was also recognized for its excellence by the Business Policy and Strategy (BPS) Division of the Academy of Management. Katila has served on the editorial review boards of Administrative Science Quarterly, Organization Science, Strategic Organization and the Strategic Management Journal, and was recently the Chair of the Technology and Innovation Management Division of the Academy of Management.

Katila studied engineering economics and information systems as an undergraduate, earned a Ph.D. in technology strategy at UT Austin on a Fulbright Scholarship, and received a Doctorate in Engineering from Helsinki University of Technology in Finland. In between, she worked at a management consultancy and in telecommunications. She is the recipient of the Eugene L. Grant Faculty Teaching Award at Stanford, and was honored by Aalto University's School of Science (former Helsinki University of Technology) as the Alumnus of the Year.

ACADEMIC APPOINTMENTS

- Professor, Management Science and Engineering

HONORS AND AWARDS

- Schendel Prize, Strategic Management Society
- President, Technology and Innovation Management Division, Academy of Management
- Industry Studies Fellow, Alfred P. Sloan Foundation
- Alumnus of the Year, Aalto University School of Science
- Top Strategy Scholar, "Emerging Scholar of the Year", Strategic Management Society
- Thought Leader Award, Entrepreneurship Division, Academy of Management
- Best Doctoral Dissertation, Technology and Innovation Management Division, Academy of Management
- Eugene L. Grant Faculty Teaching Award, Stanford University
- Best Doctoral Dissertation, Technology Management Section, INFORMS
- Best Symposium Award, Organization & Management Theory Division, Academy of Management
- Best Dissertation Finalist, Business Policy and Strategy Free Press Award, Academy of Management
- Best Student Paper, Technology and Innovation Management Division, Academy of Management
- Leadership Track, Technology and Innovation Management Division, Academy of Management
- W.M. Keck Foundation Faculty Scholar, Stanford University

Research & Scholarship

CURRENT RESEARCH AND SCHOLARLY INTERESTS

The question that drives Prof. Katila's research is how technology-based firms with significant resources can stay innovative. Her work lies at the intersection of the fields of technology, innovation, and strategy and focuses on strategies that enable organizations to discover, develop and commercialize technologies. She combines theory with longitudinal large-sample data (e.g., robotics, biomedical, multi-industry datasets), background fieldwork, and state-of-the-art quantitative methods. The ultimate objective is to understand what makes technology-based firms successful.

To answer this question, Prof. Katila conducts two interrelated streams of research. She studies (1) strategies that help firms leverage their existing resources (leverage stream), and (2) strategies through which firms can acquire new resources (acquisition stream) to create innovation. Her early contributions were firm centric while recent contributions focus on innovation in the context of competitive interaction.

Professor Katila's work has appeared in the Academy of Management Journal, Administrative Science Quarterly, Strategic Entrepreneurship Journal, Strategic Management Journal, Research Policy and other outlets. In her most recent work, supported by the National Science Foundation, Katila examines how firms create new products successfully. Focusing on the robotics and medical device industries, she investigates how different search approaches, such as the exploitation of existing knowledge and the exploration for new knowledge, influence the kinds of new products that technology-intensive firms introduce. Professor Katila has served on the

editorial boards of several leading journals including *Administrative Science Quarterly*, *Organization Science*, *Strategic Organization*, and the *Strategic Management Journal*.

Teaching

COURSES

2017-18

- Innovation and Strategic Change: MS&E 371 (Win)
- Innovation, Creativity, and Change: MS&E 175 (Win)
- Senior Project: MS&E 108 (Win)

2016-17

- Innovation, Creativity, and Change: MS&E 175 (Win)
- Senior Project: MS&E 108 (Win)

2015-16

- Innovation and Strategic Change: MS&E 371 (Win)
- Innovation, Creativity, and Change: MS&E 175 (Win)
- Senior Project: MS&E 108 (Win)

2014-15

- Innovation, Creativity, and Change: MS&E 175 (Win)
- Senior Project: MS&E 108 (Win)
