Jeffrey Decker

Program Director, Precourt Institute for Energy

Bio

BIO

Jeff Decker is the Program Director for Hacking for Defense and co-teaches Hacking for Defense. Jeff served in the U.S. Army as a 2nd Ranger Battalion light infantry squad leader in Iraq and Afghanistan. Following his service, he earned his doctorate in International Relations from Bond University in Australia, where he wrote his dissertation “Enhancing the Effectiveness of Private Military Contractors.” Jeff conducted research analysis in national security and international affairs at the RAND Corporation. Jeff’s current research focuses on defense innovation, dual-use technologies, and fostering defense-industry partnerships.
