Bio

BIO

Dr. Heather Rosen is a licensed clinical psychologist and Clinical Instructor of Psychiatry and Behavioral Sciences at the Stanford University School of Medicine. She has expertise in the evaluation and treatment of eating disorders in adolescents and young adults and is a certified therapist in Family Based Treatment (FBT) for anorexia nervosa. Dr. Rosen earned her doctoral degree in Clinical Psychology from the Catholic University of America in Washington, D.C. and completed her predoctoral internship and postdoctoral fellowship at the Stanford University School of Medicine. She is a primary supervisor for psychology and psychiatry trainees in the Division of Child and Adolescent Psychiatry and serves as a therapist on treatment studies for adolescents with eating disorders.
