Stanford

Ariadne Nichol

- Casual - Non-Exempt, Anesthesia
- Research Assistant, School of Medicine - Biomedical Ethics

Bio

BIO

Ariadne Nichol is a researcher at the Stanford Center for Biomedical Ethics. She earned her bachelors degree in Human Biology from Stanford University, where she graduated with Honors in Ethics in Society and was a Public Service Scholar. She has previously worked on global public health research ethics topics at Doctors Without Borders and at the World Health Organization (WHO). Her work has been published in the American Journal of Bioethics and PLOS One. Her areas of interest include ethical issues of biomedical research in vulnerable populations; ethical challenges associated with emerging infectious diseases; as well as ethical and social issues raised by application of big data and machine learning in health care and pharmacogenetics.
