Bio

BIO

Dr. Janey S.A. Pratt, MD, FACS, FASMBS is a general surgeon who specializes in Robotic Hernia repair and Metabolic and Bariatric Surgery (MBS). She began her career in general surgery at Massachusetts General Hospital, where she was a founding member of the MGH Weight Center. As surgical director she introduced minimally invasive MBS and adolescent MBS to MGH in 2001 and 2007 respectively. In 2011 Dr. Pratt took over as Director at the MGH Weight Center and continued to work on several national committees towards improving access and care of adolescents with severe obesity. Dr. Pratt continued to practice general surgery through out her tenure at MGH seeing patients with breast cancer, hernias, and obesity. She performed advance minimally invasive surgery(MIS) as well as advanced endoscopy.

In 2016 Dr. Pratt moved to California where she began her work at Stanford University, splitting her time between the Lucille Packard Children's Hospital and the Palo Alto VA. She performs Minimally Invasive MBS at both institutions as well as endoscopy. Dr. Pratt has trained in robotic surgery and performs robotic assisted hernia repairs on complex and simple hernias. As a Clinical Associate Professor of Surgery, Dr. Pratt is involved in training Stanford medical students and residents both in the OR, in the clinic, in the simulation labs and in the class room. Dr. Pratt is the associate program director of the VA MIS fellowship program, and Chair of the Pediatric Committee of the American Society for Metabolic and Bariatric Surgery.

Dr. Pratt has been involved in creating and updated guidelines for Adolescent MBS since 2005. In 2018 she was first author on the ASMBS Pediatric Metabolic and Bariatric Surgery Guidelines. Her other research interests include: MIS approaches to hernia repair and bowel obstruction, pediatric obesity treatment and the use of medications to improve outcomes of MBS. Dr. Pratt frequently lectures on the subject of Adolescent Metabolic and Bariatric Surgery.

CLINICAL FOCUS

- General Surgery

ACADEMIC APPOINTMENTS

- Clinical Associate Professor, Surgery - General Surgery
- Clinical Associate Professor, Surgery - Pediatric Surgery
- Member, Maternal & Child Health Research Institute (MCHRI)

PROFESSIONAL EDUCATION

- Medical Education: Tufts University School of Medicine (1993) MA
- Board Certification: General Surgery, American Board of Surgery (1999)
- Residency: Massachusetts General Hospital (1998) MA
- Internship: Massachusetts General Hospital (1994) MA
