## Career advising to senior medical students pursuing EM residency positions:

After becoming Program Director in 2010, I met with every senior medical student on rotation in the Northwestern Emergency Department (Feinberg and visiting students), to provide career advising and solicit information for their letters of recommendation. Along with our Clerkship Director, I co-author a Standardized Letter of Evaluation on behalf of the faculty for each of these medical students (approximately 15-20 per year).

I have continued to advise Stanford medical students interested in emergency medicine since joining the faculty in May 2017. I present three Specialty Nights per year for our students and I co-author all Standardized Letters of Evaluation for Stanford and visiting students (approximately 40 per year). Northwestern University, Summer Student

2009	Rocio Pozzi	Office of Minority & Cultural Affairs Summer Program

## Career Advising to Emergency Medicine Residents:

In 2006, I created a monthly seminar series for the PGY 4 emergency medicine residents entitled, 'Career Transitions Program'. Since that time I have met with each senior resident many times throughout their job search, including formal lectures on cover letter and CV development, interview skills, contract negotiations, financial planning, and other career topics. I review and edit all of their cover letters and CVs, I conduct individual mock job interview sessions, and I author numerous letters of recommendation.
