

A. IDENTIFYING DATA

Name	David H. Rehkopf, ScD, MPH
Address	1070 Arastradero Road, Room 280, Palo Alto, CA 94304
e-mail	drehkopf@stanford.edu
telephone	650-725-0356

B. ACADEMIC HISTORY

Colleges and Universities Attended

1990-1994	B.S. (Biology), University of Puget Sound, Tacoma, WA
1999-2001	M.P.H. (Epidemiology/Biostatistics), School of Public Health, University of California, Berkeley
2001-2006	Sc.D., Society, Human Development and Health, Harvard School of Public Health, Harvard University, Boston, MA (advisor: Dr. Lisa Berkman)

Fellowship Training

2006	Post-doctoral research fellow, Department of Society, Human Development and Health, Harvard School of Public Health, Boston, MA
2006-2008	Health and Society Scholar (Cohort 4), Robert Wood Johnson Foundation, University of California, Berkeley and San Francisco

Scholarships and Honors

1990-1994	Trustee Scholar, University of Puget Sound, Tacoma, WA
2000-2001	Public Health Trainee Scholarship, School of Public Health, University of California, Berkeley
2003	Honors, Doctoral Written Exam, Department of Society, Human Development and Health, Harvard School of Public Health, Boston, MA

Other Study and Research Opportunities

Past:

- 4/1/2006 – 3/31/2007 Funder: Robert Wood Johnson Foundation (Health and Society Scholars Pilot Project)
Title: Random forest analysis of adult mortality determinants
Role: Co-Principal Investigator (Co-Principal Investigator: Constance Wang, UC Berkeley)
- 4/1/2007 – 3/31/2008 Funder: Robert Wood Johnson Foundation (Health and Society Scholars Pilot Project)
Title: Understanding childhood and adolescent predictors of early adulthood social disparities in obesity
Role: Principal Investigator
- 7/1/2008 – 12/31/2008 Funder: Robert Wood Johnson Foundation (Health and Society Scholars Pilot Project)
Title: Socioeconomic gradients in Cancer in Northern California
Role: Principal Investigator
- 9/1/2008 – 8/31/2009 Funder: Russell Sage Foundation (Research Grants Program)
Title: Understanding the connections between SES and health
Role: Co-Investigator (Co-Principal Investigators: William Dow and Theresa Seeman, UC Berkeley and UCLA)
- 11/1/2009 – 10/31/2011 Funder: Robert Wood Johnson Foundation (Healthy Eating Research)
Title: Examining how increases in earned income tax credits, food prices and neighborhood context affect children's BMI
Role: Principal investigator
- 1/15/2010 – 1/14/2012 Funder: California Breast Cancer Research Program
Title: A New Paradigm for Understanding the Causes of Breast Cancer
Role: Co-investigator (Principal Investigator: Robert Hiatt, UCSF)
- 4/1/2010 – 3/31/2011 Funder: Robert Wood Johnson Foundation (Health and Society Scholars Pilot Project)
Title: Investigating the Health Effects of a Living Wage intervention.
Role: Principal Investigator

9/30/2010 – 7/31/2015	Funder: NIH (R01) Title: Intergenerational obesity: do early adversity and pregnancy explain disparities? Role: Co-investigator (Principal Investigator: Barbara Abrams, UC Berkeley)
9/1/2012 – 8/31/2013	Funder: Stanford Center for Demography and Aging Title: A social selection model for genetic and environmental causes of disparities in chronic disease. Role: Principal Investigator
1/1/2014 – 12/31/2014	Funder: Innovation Seed Grant Program, Population Health Sciences, Stanford (Spectrum) Title: Social and Environmental Determinants of DNA Methylation: A Population Based Study Role: Principal Investigator
4/1/2012 – 1/31/2018	Funder: NIH (R01) Title: CAUSES: Causes of Asian American mortality Understood by Socio-Economic Status. Role: Co-investigator (Principal Investigator: Latha Palaniappan, Stanford)
1/15/2015 – 1/14/2017	Funder: California Breast Cancer Research Program Title: A New Paradigm for Understanding the Causes of Breast Cancer – Phase II Role: Co-investigator (Principal Investigator: Robert Hiatt, UCSF)
12/1/2016 – 11/30/2017	Funder: NIH (through University of Michigan) Title: Estimating the role of the Earned Income Tax Credit in modifying negative impacts of damaging early life conditions on late-life health and wellbeing Role: Principal Investigator
 Present:	
6/1/2006 – 5/31/2022	Funder: NIH (R01) Title: Disease, disability and death in an aging workforce Role: Co-investigator (Principal Investigator: Mark Cullen, Stanford)

4/15/2014 – 3/31/2019	Funder: NIH (K01) Title: Life course contexts and work – quantifying impacts on aging and chronic disease Role: Principal Investigator
8/1/2014 – 5/31/2019	Funder: NIH (R01) Title: Disparities in care, morbidity & survival among infants with Birth defects Role: Co-investigator (Principal Investigator, Suzan Carmichael, Stanford)
4/11/2016 – 3/31/2021	Funder: NIH (U54) Title: Stanford precision health for ethnic and racial equity (SPHERE) transdisciplinary collaborative center. Role: Co-Investigator (Principal investigator: Mark Cullen, Stanford)
7/1/2016 – 6/30/2021	Funder: Canadian Institutes for Health Research (Project Grant) Title: Epigenetic Signatures of Successful Aging Role: Principal Investigator (with Michael Kobor, University of British Columbia)
10/1/2016 – 8/31/2020	Funder: NIH (R01) Title: Occupational exposure to PM 2.5 and Cardiovascular Disease (CVD) (Principal Investigator: Mark Cullen, Stanford) Role: Co-investigator (Principal Investigator: Mark Cullen, Stanford)
8/16/2017 – 5/31/2022	Funder: NIH (R01) Title: Race/Ethnicity, DNA Methylation, and Disparities in Cardiovascular Mortality: NHANES 1999-2002 Role: Principal Investigator (with Belinda Needham, University of Michigan)
10/1/2017 – 9/30/2018	Funder: Hartford Foundation Title: State based differences in the well-being of older persons and their relation to aging related supports and services Role: Co-Investigator (Principal Investigator: John Rowe, Columbia University)
10/19/2017 – 5/31/2021	Funder: NIH (R01) Title: Health, Neighborhood Context, and Mobility Role: Co-Investigator (Principal Investigator: Theresa Osypuk, University of Minnesota)

C. Employment

September 1, 1994 to September 30, 1997	Research Technician Center for Infectious Disease Research (formerly Seattle Biomedical Research Institute) Feagin Lab Seattle, Washington
November 1, 1997 to August 31, 1999	Research Associate Department of Medicine, Division of Infectious Diseases Koehler Lab University of California, San Francisco
September 1, 2008 to December 31, 2010	Assistant Professor School of Medicine, Department of Epidemiology & Biostatistics, University of California, San Francisco
January 1, 2011 to October 31, 2011	Acting Assistant Professor School of Medicine, Department of Medicine, Division of General Medical Disciplines, Stanford University
November 1, 2011 to October 31, 2015	Assistant Professor School of Medicine, Department of Medicine, Division of Primary Care and Population Health, Health Research & Policy (By courtesy), Stanford University
November 1, 2015 to October 31, 2018	Assistant Professor School of Medicine, Department of Medicine, Division of Primary Care and Population Health, Health Research & Policy (By courtesy), Stanford University

D. Public and Professional Service

Editorial 2016 to present	<i>BMC Public Health</i> (Section Editor)
------------------------------	---

Ad Hoc Reviewer

2006 to present	<i>American Journal of Epidemiology</i>
2006 to present	<i>Social Science and Medicine</i>
2006 to present	<i>American Journal of Public Health</i>
2007 to present	<i>BMC Public Health</i>
2007 to present	<i>Annals of Epidemiology</i>
2007 to present	<i>International Journal of Epidemiology</i>
2007 to present	<i>Journal of Epidemiology and Community Health</i>
2008 to present	<i>Epidemiology</i>

NIH Review Panels

February 2013	Social Science and Population Studies
July 2014	Secondary Analyses of Social and Behavioral Datasets in Aging

International Review Panels

2016	Swiss National Science Foundation
------	-----------------------------------

E. Post-Degree Honors and Awards, Including Memberships in Professional Societies

2001 – present	Member, American Public Health Association
2005 – present	Member, Society for Epidemiologic Research
2006 – present	Member, Population Association of America
2011 – 2015	Network Associate, The MacArthur Foundation Research Network on an Aging Society
2014 – present	Member, International Epidemiologic Association

F. BIBLIOGRAPHY

Original Peer-reviewed Research Articles (103 total)

1. Ji Y, Mericle B, **Rehkopf DH**, Anderson J, Feagin J. The *Plasmodium falciparum* 6 kb element in polycistronically transcribed. *Molecular and Biochemical Parasitology* 81: 211-223, 1996. *I performed key experiments and contributed to the interpretation of results.*
2. Rickoll W, **Rehkopf DH**, Dunn C, Malmberg A, VanWinkle-Swift K. The *sta-1* mutation prevents assembly of starch granules in nitrogen-starved cells and serves as a useful morphological marker during sexual reproduction in *Chlamydomonas monoica*. *Journal of Phycology* 34: 147-151, 1998. *I produced the electron micrographs and contributed to the interpretation of results.*
3. Gillespie D, Salazar N, **Rehkopf DH**, Feagin J. The fragmented mitochondrial ribosomal RNAs of *Plasmodium falciparum* have short A tails. *Nucleic Acids Research* 27: 2416-2422, 1999. *I helped to develop the experimental approach, performed key experiments and contributed to the interpretation of results.*

4. **Rehkopf DH**, Gillespie D, Feagin J. Transcriptional mapping and RNA processing of the *Plasmodium falciparum* mitochondrial mRNAs. *Molecular and Biochemical Parasitology* 105: 91-103, 2000.
5. Park S, Kelminson K, Lee A, Zhang P, Warner R, **Rehkopf DH**, Calderwood S, Koehler J. Identification, Characterization, and Functional Analysis of a Gene Encoding the Ferric Uptake Regulation Protein in *Bartonella* Species. *Journal of Bacteriology* 183: 5751-5755, 2001. *I developed new experimental approaches, performed key experiments and contributed to the interpretation of results.*
6. Krieger, N, Chen J, Waterman P, **Rehkopf DH**, Subramanian SV. Race/ethnicity, gender and monitoring socioeconomic gradients in health: a comparison of area-based socioeconomic measures--The Public Health Disparities Geocoding Project. *American Journal of Public Health* 93: 1655-1671, 2003. *I contributed to the analysis of data, the visualization of results, the interpretation of results and the editing of the manuscript for content.*
7. Subramanian SV, Chen J, **Rehkopf DH**, Waterman P, Krieger N. Racial disparities in context: a multilevel analysis of neighborhood variations in poverty and excess mortality among black populations in Massachusetts. *American Journal of Public Health* 95: 260-265, 2005. *I contributed to the analysis of data, the visualization of results, the interpretation of results and the editing of the manuscript for content.*
8. Krieger N, Chen J, Waterman P, **Rehkopf DH**, Subramanian SV. Painting a truer picture of US socioeconomic and racial/ethnic health inequalities: the Public Health Disparities Geocoding Project. *American Journal of Public Health* 95: 312-323, 2005. *I contributed substantially to the analysis of data, the visualization of results, the interpretation of results and the editing of the manuscript for content.*
9. Bolon MK, Arnold AD, Feldman HA, **Rehkopf DH**, Strong EF, Goldman DA, Wright SB. Evaluating vancomycin use at a pediatric hospital: new approaches and insights. *Infection Control Hospital Epidemiology* 26: 47-55, 2005. *I helped to conceptualize the study idea and assisted with data analysis. I contributed to editing the manuscript for content.*
10. **Rehkopf DH**, Buka S. The association between suicide and socioeconomic characteristics of geographical areas: a systematic review. *Psychological Medicine* 36: 145-157, 2006.
11. Krieger N, Chen J, Waterman P, **Rehkopf DH**, Yin R, Coull B. Race/ethnicity and changing US socioeconomic gradients in breast cancer incidence: California and Massachusetts, 1978-2002. *Cancer Causes and Control* 17: 217-226, 2006. *I contributed to the statistical analysis, to the interpretation of results and to editing of the manuscript for content.*
12. **Rehkopf DH**, Haughton LT, Chen JT, Waterman PD, Subramanian SV, Krieger N. Monitoring socioeconomic disparities in death: comparing individual-level education and area-based socioeconomic measures. *American Journal of Public Health* 96: 2135-2138, 2006.
13. Subramanian SV, Chen J, **Rehkopf DH**, Waterman P, Krieger N. Comparing individual and area-based socioeconomic measures for the surveillance of health disparities: a multilevel analysis of Massachusetts (US) births, 1988-92. *American Journal of Epidemiology* 164: 823-834, 2006. *I contributed to the data analysis and the interpretation of study findings. I contributed to editing the manuscript for content.*

14. Chen, JT, **Rehkopf DH**, Waterman P, Subramanian SV, Coull B, Cohen B, Ostrom M, Krieger N. Mapping and measuring social disparities in premature mortality: the impact of census tract poverty within and across Boston neighborhoods, 1999-2001. *Journal of Urban Health* 83: 1063-1084, 2006. *I contributed to the design of the study. I contributed to the statistical analysis and to the editing of the manuscript for content.*
15. Loucks EB, **Rehkopf DH**, Thurston R, Kawachi I. Socioeconomic disparities in the metabolic syndrome differ by gender: evidence from NHANES III. *Annals of Epidemiology* 17: 19-26, 2007. *I helped to conceptualize the idea for this study. I contributed to the interpretation of study findings. I contributed to the statistical analysis and to the revising of the manuscript.*
16. Loucks EB, Magnusson KT, Cook SC, **Rehkopf DH**, Ford ES, Berkman L. Socioeconomic Position and the metabolic syndrome in early, middle and late life: evidence from NHANES 1999-2002. *Annals of Epidemiology* 17:782-790, 2007. *I contributed to the study design, the interpretation of study findings, to the statistical analysis and to the revising of the manuscript.*
17. Krieger N, **Rehkopf DH**, Chen JT, Waterman PD, Marcelli E, Kennedy M. The fall and rise of US inequities in premature mortality: 1960-2002. *PLoS Medicine* 5:e46, 2008. *I contributed to the study design and to the interpretation of study findings. I led the acquisition of data for the study and contributed to the statistical analysis. I contributed to the revising of the manuscript, and drafted the methods section.*
18. Mendelson T, **Rehkopf DH**, Kubzansky LD. Depression among Latinos in the United States: a meta-analytic review. *Journal of Consulting and Clinical Psychology* 76: 355-366, 2008. *I contributed to the study design and the interpretation of study findings. I did the statistical analysis. I contributed to the revising of the manuscript and drafted the methods and results sections.*
19. **Rehkopf DH**, Coull B, Berkman L, Krieger N. The non-linear risk of mortality by income level in a healthy population: US National Health and Nutrition Examination Survey mortality follow-up cohort. *BMC Public Health* 8: 383-394, 2008.
20. Braithwaite D, Ellis BJ, Moore DH, Lustig RH, Epel ES, Ong KK, **Rehkopf DH**, Wang MC, Miller SM, Hiatt RA. Socioeconomic status in relation to early menarche among black and white girls. *Cancer Causes and Control* 20: 713-720, 2009. *I contributed to the interpretation of study findings and to the statistical analysis and to the editing of the manuscript.*
21. Brown R, **Rehkopf DH**, Worthman CM, Copland W, Costello EJ. Life course priorities among Appalachian emerging adults: revisiting Wallace's organization of diversity. *Ethos*, 37: 225-242, 2009. *I contributed to the study design and the interpretation of study findings. I did the statistical analysis and led the interpretation of the findings. I contributed to the revising of the manuscript.*
22. **Rehkopf DH**, Dow WH, Rosero-Bixby L. Differences in the association of cardiovascular risk factors with education: a comparison of Costa Rica (CRELES) and the United States (NHANES). *Journal of Epidemiology and Community Health* 64: 821-828, 2010.

24. Margerison Zilko CE, **Rehkopf DH**, Abrams B. Associations of maternal gestational weight gain with short- and long-term maternal and child health outcomes. *American*

Journal of Obstetrics & Gynecology 202: 574.e1-8, 2010. *I contributed substantially to the study design, the interpretation of study findings and to the statistical analysis. I contributed to the revising of the manuscript. The first author was a doctoral student that I helped to mentor.*

25. Dow WH, **Rehkopf DH**. Socioeconomic gradients in health in international and historical context. *Annals of the New York Academy of Science* 1186: 24-36, 2010.
26. Strully K, **Rehkopf DH**, Xuan Z. Liberal welfare state policies and health: the effect of the earned income tax credit on child well-being. *American Sociology Review* 75: 534-562, 2010. *I contributed to the study design, to the interpretation of study findings and to the statistical analysis. I contributed substantially to the revising of the manuscript.*
27. **Rehkopf DH**, Jencks C, Glymour MG. The association of earnings with health in middle age: do self-reported earnings for the previous year tell the whole story? *Social Science and Medicine* 71: 431-439, 2010.
28. **Rehkopf DH**, Kuper H, Marmot MG. The effects of the discrepancy between objective and subjective measures of job strain on sickness absence in the Whitehall II study. *Scandinavian Journal of Work, Environment & Health* 36: 449-457, 2010.
29. **Rehkopf DH**, Laraia BA, Segal M, Braithwaite A, Eppel ES. The relative importance of predictors of BMI change, overweight and obesity in adolescent girls. *International Journal of Pediatric Obesity* 6: e233-42, 2011.
30. Cohen AK, **Rehkopf DH**, Deardorff J, Abrams B. Education and obesity at age 40 among American adults. *Social Science and Medicine* 78: 34-41, 2013. *I contributed to the overall design of the study, obtaining funding and the interpretation of study findings. I contributed to the statistical analysis and to the revising of the manuscript. The first author was a doctoral student for whom I acted as a research mentor.*
31. Deardorff J, Berry-Millett R, **Rehkopf DH**, Luecke E, Lahiff M, Abrams B. Maternal pre-pregnancy BMI, gestational weight gain, and age at menarche in daughters. *Maternal and Child Health Journal* 17: 1391-1398, 2013. *I contributed to the interpretation of study findings. I led the design of the statistical analysis and contributed to writing the manuscript.*
32. Timperi AW, Ergas IJ, **Rehkopf DH**, Roh JM, Kwan ML, Kushi LH. Employment status and quality of life in recently diagnosed breast cancer survivors. *Psychooncology*; 22: 1411-20, 2013. *I contributed to advising on the statistical approach and to the interpretation of findings.*
33. Abrams B, Heggeseth B, **Rehkopf DH**, Davis E. Parity and body mass index in U.S. women: a prospective 25-year study. *Obesity* 21: 1514-1518, 2013. *I contributed to the study design, obtaining funding, to the interpretation of study findings, to the statistical analysis and to the revising of the manuscript.*
34. Kwan ML, Tam EK, Ergas IJ, **Rehkopf DH**, Roh JM, Lee MM, Somkin CP, Stewart AL, Kushi LH. Patient-physician interaction and quality of life in recently diagnosed breast cancer patients. *Breast Cancer Research and Treatment* 139: 581-95, 2013. *I contributed to the interpretation of study findings, to the statistical analysis and to the editing of the manuscript for content.*
35. Needham BL, Adler N, Gregorich S, **Rehkopf DH**, Lin J, Blackburn EH, Epel ES. Socioeconomic status, health behavior, and leukocyte telomere length in the National Health and Nutrition Examination Survey, 1999-2002. *Social Science and Medicine* 85: 1-8, 2013. *I contributed to the study design, obtaining funding and contributed to the*

- interpretation of study findings. I contributed to the statistical analysis and to the revising of the manuscript.*
36. Nguyen QC, Schmidt NM, Glymour MM, **Rehkopf DH**, Osypuk TL. Were the mental health benefits of a housing mobility intervention larger for adolescents in higher socioeconomic status families? *Health and Place* 23: 79-88, 2013. *I contributed to the interpretation of study findings, to the statistical analysis and to the editing of the manuscript.*
 37. Tomiyama AJ, Puterman E, Epel ES, **Rehkopf DH**, Laraia BA. Chronic psychological stress and racial disparities in body mass index change between Black and White girls aged 10-19. *Annals of Behavioral Medicine* 45: 3-12, 2013. *I obtained the data for this study and contributed to the interpretation of study findings. I contributed to the statistical analysis approach and to the revising of the manuscript.*
 38. Pantell M, **Rehkopf DH**, Jutte DP, Syme SL, Balmes JR, Adler NA. Social isolation: is it a better predictor of mortality than clinical risk factors? *American Journal of Public Health* 103: 2056-62, 2013. *I contributed to the study design, to the interpretation of study findings and to the statistical analysis approach. I contributed to the editing of the manuscript. The first author was a medical student in the joint medical program at University of California, San Francisco and Berkeley and I was the head of his thesis committee.*
 39. Bruckner T, **Rehkopf DH**, Catalano R. Income gains and very low weight birth among low-income black mothers in California. *Biodemography and Social Biology* 59: 141-56, 2013. *I contributed to the origin of the study idea, the study design and the interpretation of study findings. I contributed to the statistical analysis. I contributed substantially to the revising of the manuscript.*
 40. Cohen A, Rai M, **Rehkopf DH**, Abrams B. Educational attainment and obesity: a systematic review. *Obesity Reviews* 14: 989-1005, 2013. *I contributed to the study design and obtaining funding. I contributed to the interpretation of study findings. I contributed to the statistical analysis and to the revising of the manuscript. The first author was a doctoral student that I jointly supervised for this work.*
 41. Everett BG, **Rehkopf DH**, Rogers RG, Hummer R. The nonlinear relationship between education and mortality: cohort, race/ethnic and sex differences. *Population Research and Policy Review* 32: 893-917, 2013. *I contributed to the study design and the interpretation of study findings. I contributed to the design of the statistical analysis and to the revising of the manuscript, in particular the introduction and discussion. The first author was a doctoral student that I supervised for this work.*
 42. **Rehkopf DH**, Dow W, Rosero-Bixby L, Lin J, Epel E, Blackburn E. Longer leukocyte telomere length in Costa Rica's Nicoyan Peninsula: a population based study. *Experimental Gerontology* 48: 1266-73, 2013.
 43. Patel CH, **Rehkopf DH**, Leppert JT, Bortz WM, Cullen MR, Chertow GM, Ioannidis JPA. Systematic evaluation of environmental and behavioral factors associated with all-cause mortality in the United States National Health and Nutrition Examination Survey. *International Journal of Epidemiology* 42: 1795-810, 2013. *I contributed to the integration of socioeconomic measures into the analysis with additional input to model specification, and contributed to the interpretation of results and the writing of the manuscript.*

44. Rosero-Bixby L, Dow W, **Rehkopf DH**. The Nicoya region of Costa Rica: a high longevity island for elderly males. *Vienna Yearbook of Population Health* 11: 109-136, 2013.
45. Cohen A, Chafee B, **Rehkopf DH**, Coyle J, Abrams B. Excessive gestational weight gain over multiple pregnancies and the prevalence of obesity at age 40. *International Journal of Obesity* 38: 714-718, 2013. *I contributed to the study design and obtaining funding. I contributed to the interpretation of study findings. I contributed to the statistical analysis and to the revising of the manuscript for content, in particular the introduction and discussion sections. The first author was a doctoral student that I jointly supervised for this work.*
46. Robinson CA, Cohen AK, **Rehkopf DH**, Deardorff J, Ritchie L, Jayaweera RT, Coyle JR, Abrams B. Pregnancy and post-delivery maternal weight changes and overweight in preschool children. *Preventative Medicine*; 60: 77-82, 2014. *I contributed to the study design, obtaining funding, to the interpretation of study findings, to the statistical analysis and to the revising of the manuscript. The first two authors were students that I assisted with mentoring on this project.*
47. Landefeld J, Burmaster K, **Rehkopf DH**, Flynn E, Hidrobo M, Acevedo MC, Fernald L. The association between a living wage and subjective social status and self-rated health: a quasi-experimental study in the Dominican Republic. *Social Science and Medicine* 121: 91-7, 2014. *I co-designed the study and obtained funding for the study. I directed the statistical analysis approach and contributed to the interpretation of results. I contributed to the writing of the manuscript. The first two authors were medical students that I co-mentored on this project.*
48. **Rehkopf DH**, Dow WH, Rosero-Bixby L, Lin J, Epel E, Blackburn EH. Seasonal variation of peripheral blood leukocyte telomere length in Costa Rica: a population based observational study. *American Journal of Human Biology* 26: 367-75, 2014.
49. Hiatt RA, Porco T, Fengchen L, Balke K, Barlow J, Braithwaite D, Diez-Roux A, Kushi LH, Moasser MM, Werb Z, Windham G, **Rehkopf DH**. A multi-level model of postmenopausal breast cancer incidence. *Cancer Epidemiology, Biomarkers and Prevention* 23: 2078-2092, 2014.
50. Leung CW, Laraia BA, Needham BL, **Rehkopf DH**, Adler N, Epel E. Soda and cell aging: an analysis of sugar-sweetened beverage consumption and leukocyte telomere length in healthy adults from the National Health and Nutrition Examination Survey. *American Journal of Public Health* 104: 2425-31, 2014. *I contributed to the study design and obtaining funding, to the interpretation of study findings, to the statistical analysis and to the revising of the manuscript.*
51. Deardorff J, Abrams B, Ekwaru JP, **Rehkopf DH**. Socioeconomic status and age at menarche: an examination of multiple SES indicators in an ethnically diverse cohort. *Annals of Epidemiology* 24: 727-33, 2014.
52. **Rehkopf DH**, Strully K, Dow WH. The short term impacts of Earned Income Tax Credit disbursements on health. *International Journal of Epidemiology* 42(6):1884-94, 2014.
53. Patel CH, Ioannidis JPA, Cullen MR, **Rehkopf DH**. Systematic assessment of correlation of household income with infectious, biochemical, physiological and environmental factors in the United States, 1999-2006. *American Journal of Epidemiology* 181:171-9, 2015.

54. Needham BL, Adler N, Gregorich S, **Rehkopf DH**, Lin J, Blackburn EH, Epel ES. Leukocyte Telomere Length and Mortality in the National Health and Nutrition Examination Survey, 1999-2002. *Epidemiology* 26: 528-35, 2015. *I contributed to the study design and obtaining funding. I contributed to the interpretation of study findings, to the statistical analysis, especially the use of survey data and the construction of models, and to the revising of the manuscript.*
55. Liu SY, Walter S, Daniel J, **Rehkopf DH**, Kubzansky LE, Nguyen T, Glymour MM. Genetic vulnerability to diabetes and obesity: does education offset the risk? *Social Science and Medicine* 127: 150-8, 2015. *I helped to conceptualize the study design. I contributed to the interpretation of study findings, to the statistical analysis approach and to the revising of the manuscript.*
56. **Rehkopf DH**, Furumoto-Dawson A, Kiszewski A, Awerbuch-Friedlander T. Spatial spread of tuberculosis through neighborhoods segregated by socioeconomic position: a stochastic automata model. *Discrete Dynamics in Nature and Society* 2015, 583819.
57. Zota AR, Needham BL, Blackburn EH, Lin J, Kyun Park S, **Rehkopf DH**, Epel ES. Associations of cadmium and lead exposure with leukocyte telomere length: findings from NHANES 1999-2002. *American Journal of Epidemiology* 181: 127-36, 2015. *I contributed to the study design and obtaining funding. I contributed to the interpretation of study findings, to the statistical analysis approach and to the revising of the manuscript.*
58. Costello S, Picciotto S, **Rehkopf DH**, Eisen EA. Using exposure-response models and G-estimation to understand racial and gender differences in heart disease and bias among autoworkers. *Occupational and Environmental Medicine* 72: 138-44, 2015. *I contributed to the study conceptualization with respect to socioeconomic measures and race/ethnicity, and to the interpretation of study findings. I contributed to the revising of the manuscript, in particular the introduction and discussion sections.*
59. **Rehkopf DH**, Eisen E, Modrek S, Mokyr Horner E, Goldstein B, Costello S, Cantley L, Slade M, Kubo J, Loftus P, Cullen M. Early life state of residence characteristics and later life hypertension, diabetes and ischemic heart disease. *American Journal of Public Health* 105: 1689-95, 2015.
60. Headen I, Mujahid MS, Cohen AK, **Rehkopf DH**, Abrams B. Racial/ethnic disparities in inadequate gestational weight gain differ by pre-pregnancy weight. *Matern Child Health* 19: 1672-86, 2015. *I contributed to the study design and obtaining funding. I contributed to the interpretation of study findings, to the statistical analysis and to the revising of the manuscript. The first author was a doctoral student that I helped to mentor.*
61. Chaffee B, Abrams B, Cohen A, **Rehkopf DH**. Socioeconomic disadvantage in childhood as a predictor of excessive gestational weight gain and obesity in midlife adulthood. *Emerg Themes Epidemiol* 12: 4, 2015.
62. Burmaster K, Landefeld J, **Rehkopf DH**, Lahiff M, Sokal-Gutierrez K, Adler-Milstein S, Fernald L. The impact of a private sector living wage intervention on depressive symptoms among apparel workers in the Dominican Republic: a quasi-experimental study. *BMJ Open*. 5: e007336, 2015. *I co-designed the study. I obtained funding for the study. I directed the statistical analysis approach and contributed to the interpretation of results. I contributed to the writing of the manuscript. The first two authors were medical students that I co-mentored on this project.*

63. Rhee JJ, Ding VY, **Rehkopf DH**, Arce CM, Winkelmayr WC. Correlates of poor glycemic control among patients with diabetes initiating hemodialysis for end-stage renal disease. *BMC Nephrology* 16:204, 2015. *I contributed to the integration of area socioeconomic measures into the analysis, and to the revision of the manuscript.*
64. Hamad R, **Rehkopf DH**. Poverty, pregnancy, and birth outcomes: a study of the earned income tax credit. *Pediatric and Perinatal Epidemiology* 29: 444-52, 2015.
65. Ranchod YK, Headen I, Petito L, Deardorff J, **Rehkopf DH**, Abrams B. Maternal child adversity, prepregnancy obesity and gestational weight gain. *American Journal of Preventative Medicine* 50: 463-469, 2015. *I contributed to the study design and obtaining funding and to the interpretation of study findings. I contributed to the statistical analysis and to the revising of the manuscript for substantive content.*
66. Basu S, **Rehkopf DH**, Siddiqi A, Glymour M, Kawachi I. Self-rated health, health-related risk behaviors, and healthcare utilization among single mothers following 1990's welfare reforms. *American Journal of Epidemiology* 183: 531-8, 2016. *I contributed to the study design, the interpretation of findings and to revising the manuscript.*
67. Nguyen M, **Rehkopf DH**. Chronic disease risk factor burden of Iranian, Ukrainian, Vietnamese refugees in California, 2002-2011. *Journal of Immigrant and Minority Health* 18: 1274-1283, 2016.
68. **Rehkopf DH**, Domingue B, Cullen MR. Gene-environment correlation: the geographic distribution of genetic risk for chronic disease in the United States. *Biodemography and Social Biology*, 62, 126-142, 2016.
