

Tristan BABEY, Ph.D.

Dept. of Earth System Science
Green Earth Sciences Bldg
367 Panama St, Stanford, CA 94305
Phone (office): (650) 723-1831
Email: babey.tristan@gmail.com
Nationality: French
Born 25 April 1989 (29)

RESEARCH INTERESTS

- Influence of geological structures and transport heterogeneity on contaminant degradation and immobilization
- Interface between models and data in hydrogeology
- Modelisation of reactive transport in dual porosity media

EDUCATION AND RESEARCH EXPERIENCE

- **2019 Postdoctoral Fellow**, Dept. of Earth System Science, Stanford University (USA)
'Reactive transport modelling of coupled biogeochemical-hydrologic processes in the unsaturated zone' (Postdoctoral faculty sponsor: K. Maher)
- **2017 Postdoctoral Fellow**, University of Rennes 1 – CNRS (France)
'Marine and continental controls of groundwater flooding in coastal areas. Impact of climate change on the coasts of Normandy (Western France)' (Advisors: J.-R. de Dreuzy and L. Aquilina).
- **2016 PhD in Hydrogeology**, University of Rennes 1 – CNRS
'Compartmentalization and contaminant transfer in underground media: interaction between transport processes, chemical reactivity and biological activity' (Advisor: J.-R. de Dreuzy). Dissertation available [online](#) (in French).
- 2015 International mobility: NCGRT, Flinders University, Adelaide, Australia
'Circovirus longevity and movement in groundwater: development of a transport model for the Ashbourne experimental site'. Grant from the city of Rennes (3000€). (Advisor: E. Bresciani).
- 2014 International mobility: University of California Davis, USA
'Modeling of pollutant degradation in aquifers with the software PhreeqC' (Advisor: T. R. Ginn).
- **2013 Master's Degree in Hydrogeology, Hydropedology and Hydrobiogeochemistry**, University of Rennes 1
- 2013 Master internship: IDAEA, Barcelona, Spain, *'Influence of diffusive porosity structure on transport and reactivity in underground media'* (Advisor: J.-R. de Dreuzy).
- 2012 Master internship: University of Rennes 1, *'Numerical assessment of the validity of the common hydrogeological model TOPMODEL'* (Advisors: E. Bresciani and P. Goderniaux).
- **2011 Bachelor's degree in Geology**, University of Rennes 1

SKILLS

- Programming: Matlab, C++ (notions), Python (notions)
- Modelisation software: PhreeqC, Modflow (interfaces PMWIN and Freewat)
- GIS: QGIS
- Langages: French (mother tongue), English (fluent)

PUBLICATIONS

(2013), *Influence of porosity structures on mixing-induced reactivity at chemical equilibrium in mobile/immobile Multi-Rate Mass Transfer (MRMT) and Multiple INteracting Continua (MINC) models*, Water Resources Research, 49(12), 8511-8530, doi: [10.1002/2013WR013808](https://doi.org/10.1002/2013WR013808).

COMMUNICATIONS

- 2015 **AGU Fall Meeting** (San Francisco, USA), 'Modeling the impact of heterogeneous spatial distribution of soil microbes on pesticide biodegradation at the centimeter scale'. Poster.
- 2014 **AGU Fall Meeting**, 'Influence of diffusive porosity architecture on kinetically-controlled reactions in mobile-immobile domain'. Poster.
- 2013 **AGU Fall Meeting**, 'Impact of immobile porosity architecture on reactive transport in mobile/immobile models'. Oral presentation.

TEACHING

- 2013 Teacher assistant, 72h/y, Master's degree level
-2015 *Basics in hydrogeology and hydrogeological modeling*
- 2013 Online coach, 24h/y, undergraduate level
-2015 *Basics in environmental sciences for the online campus ENVAM*
