### **LEGISLATIVE ACTIVITIES**

*Authorship of both Federal and California State legislation, including testimony before various committees of the Senate and Assembly, and extensive negotiation with members of Congress, the California state legislature, and representatives of health care provider organizations and consumer groups.*

## **CALIFORNIA STATE LEGISLATION & REGULATIONS**

### Uncompensated care

Authorship of legislation which helps provide over \$200 million per year (via surcharge on vehicular moving violations) for emergency medical care of indigent patients by physicians, hospitals, and EMS systems.

[California Health & Safety Code Section 1717.98].

### Inter-hospital patient transfer

Authorship of legislation which sets standards for the transfer of medically stable patients, and prohibits the economically-motivated transfer of unstable patients.

[California Health & Safety Code Section 1317].

### Medical control of emergency medical services

Authorship of legislation which increases physician control over local EMS systems.

### Medical standards for free-standing clinics

Authorship of legislation which sets standards for hospital-based and free-standing facilities using the word "emergency" in their names and advertising.

### Involvement in other legislative and regulatory activities

Standards for state-certified trauma centers.

Standards for medical helicopter services.

Funding for trauma centers.

Funding for poison control centers.

Law requiring the use of vehicular seat belts.

Law requiring the use of vehicular child restraints.

Law requiring the use of motorcycle helmets.

Law requiring the use of bicycle helmets by children.

Law regulating the conduct of managed care organizations whose patients present to emergency departments.

## **FEDERAL LEGISLATION**

Authorship of two sections of the Federal "anti-dumping" law, the Emergency Medical Treatment and Labor Act (EMTALA).

One section provides whistle blower protection for medical personnel who report a violation

[42 United States Code 1395 dd, paragraph d.1.C].

The other section provides an exemption for physicians who must transfer medically unstable patients due to lack of local resources [42 United States Code 1395 dd, paragraph i].

Involvement in legislation and regulation pertaining to various issues relevant to emergency medicine, including

- Funding of graduate medical education
- Responsibilities of insurers and managed care organizations
- Reimbursement for medical care
