RESEARCH PROGRAM

- 1998-2001 Impact of a practice guideline and educational program for community acquired pneumonia. (Also, The Role of a Hospitalist in Guideline Implementation). **Basaviah P** and Sands K. An observational study supported by educational grant from Ortho McNeill. Oral presentation at regional Society for General Internal Medicine meeting (2000) and poster presentation at Society of Hospital Medicine annual meeting (2000). Pharmaceuticals.
- 1998-2000 Areas of Concentration: Curricular Vehicles for the Senior Year of Medical Residency **Basaviah P**, Fazio S, Aronson M, Bates C and AOC Working Group. Poster presentation at Medical Innovations: Society of General Internal Medicine National Meeting. Boston, MA. May, 2000. Pilot complete and program has expanded to include medical education and hospital medicine.
- 1998-2000 Teaching Housestaff How to Teach. Doweiko J, Fazio S, **Basaviah P**. Pilot completed as part of Harvard Medical School’s initiative to create a curriculum focused on advancing

- house officers' teaching skills. Program has expanded to current medicine residency classes at Beth Israel Deaconess Medical Center.
- 2001-2002 A Multimedia Physical Diagnosis Skills Curriculum for Medicine Clerkship Students Hauer KE and **Basaviah P.** Supported by Instructional Improvement Grant, UCSF. Pilot completed and abstract presented at regional and national educational meetings. Curriculum is ongoing as part of the medicine clerkship.
- 2002-present Assessing students' skills, perceptions of their abilities, and attitudes about their roles in the inpatient setting (interactions with patients and other health care providers) during the transition from pre-clinical to clinical years at UCSF Medical School. Qualitative and quantitative assessment ongoing through development, implementation, and evaluation of curricula (Clinical Interlude, Prep for the Clerkships) through surveys and personal reflection pieces.
- 2004-2006 The transition from the preclinical to clinical clerkships in medical school: a benchmarking study. Poncelet A. Served as research assistant and consultant. The ultimate goal of the project will be to use the information found in this survey of 100 US and Canadian medical schools to develop a bridging curriculum that will enable students to arrive at the clerkships with the background and skills needed in order to maximize the learning experience. My survey analyses were included in the data abstraction that is included in a paper submitted for review.
- 2005-2006 CV analysis of the Impact of Innovations Funding at UCSF's Academy of Medical Educators. Lead on this analysis of clinician educators at UCSF awarded funding for innovations education projects. Project focuses on impact of this funding on faculty's subsequent scholarship and career achievements in medical education.
- 2005-2005 Inter-professional Curricula across medical training. Harvard Macy Program for Health Professions Educators. Focus groups initiated in 2006 and poster of initial curricular design presented at Harvard Macy (2005) and UCSF Medical Education Day, San Francisco (2005). Work formed basis for article appearing in HMI (Harvard Macy International Newsletter).
- 2006-2007 SFDC, Professionalism in Contemporary Practice. Teaching to teach seminar in September, 2006 completed. Seminar series implementation in progress, May-June, 2007. Assess impact of "Future faculty development" program for fellows, chief residents, and faculty through the SFDC curriculum.
- 2007-present Curricular innovations in Practice of Medicine Course (Quarter 1 baseline standardized patient survey; quarter 6 transitions to clerkship survey)
