

## *James Holland Jones*

Department of Environmental Social Sciences  
Stanford Doerr School of Sustainability  
Yang & Yamazaki (Y2E2) Building  
473 Via Ortega, Room 140  
Stanford, CA 94305-4216  
USA

Office Phone: (650) 721-2484  
Fax: (650) 498-5099  
Email: [jhj1@stanford.edu](mailto:jhj1@stanford.edu)  
url: <https://heeh.stanford.edu>  
ORCID: <https://orcid.org/0000-0003-1680-6757>  
Github: <https://github.com/eehh-stanford>

### 1 Education

Ph.D., Anthropology, Harvard University, Cambridge, Massachusetts. 2000  
A.M., Anthropology, Harvard University, Cambridge, Massachusetts. 1994  
B.A., Anthropology and Biology, New College, Sarasota, Florida. 1991

### 2 Research interests

**Anthropology** Human ecology and human adaptability, demography and life history theory, ecology of infectious disease, risk and decision science, social networks

**Demography & Epidemiology** Biodemography, infectious disease epidemiology, social networks, historical demography, demographic microsimulation, kinship, global health

**Quantitative Methods** Open science, network analysis, agent-based simulation, Bayesian methods, event-history analysis, R, Julia

### 3 Professional Positions

#### Current Positions

2023- Professor, Department of Environmental Social Sciences, Stanford Doerr School of Sustainability

2023- Professor, Department of Earth System Science, Stanford University

2015- Resident Fellow, Castaño House, Stanford University

2010- Senior Fellow, Woods Institute for the Environment, Stanford University University.

## Past Positions

- 2015-2023 Associate Professor, Department of Earth System Science, Stanford University  
2013-2018 Senior Scientist in Grand Challenges in Ecosystems and the Environment, Imperial College, London  
2010-2015 Associate Professor, Department of Anthropology, Stanford University  
2011-2015 Resident Fellow, Arroyo House, Stanford University  
2009-2013 Director, Methods of Analysis Program in the Social Sciences (MAPSS), Stanford University  
2007-2010 Assistant Professor, Department of Anthropology, Stanford University  
2007-2010 Fellow, Woods Institute for the Environment, Stanford University  
2003-2007 Assistant Professor, Department of Anthropological Sciences, Stanford University  
2002-2003 Research Scientist, Center for Studies in Demography and Ecology, University of Washington  
2001-2003 Post-Doctoral Affiliate, Center for Statistics and the Social Sciences, University of Washington  
2001-2002 Senior Fellow, Allergy and Infectious Diseases, University of Washington Medical School, Seattle, Washington  
2001-2002 Research Fellow, Center for Studies in Demography and Ecology, University of Washington  
2000-2001 Lecturer, Department of Anthropology, Harvard University  
1998-2001 Assistant Senior Tutor, Fellowships. Mather House, Harvard College  
1997-2001 Resident Tutor in Biology and Anthropology. Mather House, Harvard College  
1992-1999 Teaching Fellow, Department of Anthropology, Harvard University  
1995-1996 Fulbright Scholar, Indonesian Institute of Science (LIPI) and Subdirectorate of Conservation and Park Management, Department of Forestry (PHPA), Indonesia  
1994 Research Assistant, Department of Animal Science, Corvallis, Oregon  
1992 Archaeologist, Archaeological Consultants Inc., Sarasota, Florida  
1991-1992 Archaeologist, Ecology and Environment Inc., Tallahassee, Florida  
1990 Scientific Research Intern, Division of Ecological Monitoring, Natural Resources Department, Sarasota, Florida

## 4 Publications

### Peer-Reviewed

**5 Invited Talks**

1. Jones, J.H. Allo-Parental Care is a Necessity Arising from the Evolution of Human Life Histories. Modeling Care Conference, Center for the Advanced Study in the Behavioral Sciences, 20 April 2024.
2. Jones, J.H. The Proper Study of Humankind is Adaptation. Environmental Justice and Sustainability, Graduate School of Business, Stanford University, 7 April 2024.
3. Jones, J.H. The Social Sciences and the Crisis of Imagination in Sustainability III. Adaptation and Innovation for Sustainable Societies, Graduate School of Business, Stanford University, 23 February 2024.
4. Jones, J.H. The Social Sciences and the Crisis of Imagination in Sustainability II. Department of Environmental Social Sciences, Stanford Doerr School of Sustainability, Stanford University, 1 February 2024.
5. Jones, J.H. Adaptation for Uncertain Futures. Faculty Forum, Stanford Doerr School of Sustainability, Stanford University, 14 November 2023.
6. Jones, J.H. The Social Sciences and the Crisis of Imagination in Sustainability I. Adaptation and Innovation for Sustainable Societies, Graduate School of Business, Stanford University, 20 May 2023.
7. Jones, J.H. Efficiency is the Enemy: The Emergent Structure of Subsistence Risk-Management Networks. Department of Anthropology, Northwestern University. 3 March 2023.
8. Jones, J.H. Frogs in the Pot: Heat Waves and the Future of Human Survivability. Race and the Speculative Conference, Stanford Humanities Center. 27 January 2023.
9. Jones, J.H. Subsistence Risk-Management Networks. Organizations and Environmental Sustainability Conference, Graduate School of Business, Stanford. 20 January 2023.
10. Jones, J.H. The Evolution of Narrative: Causal Structures for Decision-Making Under Uncertainty. Rossano Lab, Department of Cognitive Science, University of California San Diego. 5 December 2022.
11. Jones, J.H. Human Adaptability: Life Histories, Livelihoods, and Networks. Department of Environmental Behavioral Sciences, Stanford University. 27 September 2022.

12. Jones, J.H. Causal Analysis in Anthropology. Cultural Anthropology Methods Program, Arizona State University. 5 July 2022.
13. Jones, J.H. Efficiency is the Enemy: The Emergent Structure of Subsistence Risk-Management Networks. Biological Anthropology Seminar, Yale University. 11 November 2021.
14. Jones, J.H. Efficiency is the Enemy: The Emergent Structure of Subsistence Risk-Management Networks. Earth System Science Seminar, Stanford University. 4 November 2021.
15. Jones, J.H. Efficiency is the Enemy: The Emergent Structure of Subsistence Risk-Management Networks. Plenary Talk, Northwest Evolution, Ecology and Human Behavior Symposium. 15 October 2021.
16. Jones, J.H. Cultural Evolutionary Dynamics Under Structural Uncertainty and the Consequences for Coupled Diffusion Processes. Behavior, Evolution, and Culture Seminar, UCLA. 4 October 2021.
17. Jones, J.H. Introduction to Human Dimensions of Pandemic Preparedness and Control. Predictive Intelligence and Pandemic Preparedness, Theme 4. National Science Foundation. 22 March 2021.
18. Jones, J.H. [Plenary Talk](#): Heterogeneity, Social Structure, and Cultural Evolutionary Theory for Pandemic Control. Predictive Intelligence and Pandemic Preparedness, Theme 3. National Science Foundation. 19 February 2021.
19. Jones, J.H. The Shape of Human Life Histories: Implications for the Evolution of Risk Preferences, Exchange, and Prosociality, Department of Anthropology, Emory University. 8 February 2021.
20. Jones, J.H. Social Structure, Behavior and the Dynamics of Coupled-Contagion, Center for Infectious Disease Dynamics, Penn State University. 12 November 2020.
21. Jones, J.H. Evolution Rationalizes Human Risk and Time Preferences, Department of Anthropology, University of Utah. 5 November 2020.
22. Jones, J.H. Coupled-Contagion and the Dynamics of the SARS Coronavirus-2. Faculty Forum, School of Earth, Energy, and the Environment, Stanford University. 16 October 2020.
23. Jones, J.H. Risk-Management and Evolutionary Anthropology, Department of Anthropology, Penn State University. 1 October 2020.
24. Jones, J.H. Anti-Racism and COVID-19. Blavatnik Institute, Department Global Health and Social Medicine, Harvard Medical School. 3 June 2020.

25. Jones, J.H. Perspectives from Biological Anthropology. COVID-19 and Anthropology: Disease, Social Justice, and Well-Being. New York Academy of Sciences, Anthropology Section Panel Discussion. 20 April 2020.
26. Jones, J.H. Violence, Relationships, and Mobility: Social and Behavioral Insights into the Dynamics and Control of Ebola Epidemics. Department of International Development, London School of Economics and Political Science. 16 October 2019.
27. Jones, J.H. Distortions and Anomalies: Can Evolutionary Theory Bring Order to Human Decision-Making? Economic Science Institute, Argyros School of Business and Economics, Chapman University, Orange, CA, 26 April 2019.
28. Jones, J.H. [The Science of Climate Fiction: Can Stories Lead to Social Action?](#) The Interval at the Long Now Foundation, San Francisco, CA, 29 January May 2019.
29. Jones, J.H. Using Network Insights to Disrupt Outbreaks. Pandemic Prediction and Forecasting Science and Technology Working Group, 12 February 2019.
30. Jones, J.H. The Evolutionary Demography of the Human Life Cycle. Duke University Population Research Institute (DuPRI), Durham, NC. 8 November 2018.
31. Jones, J.H. Opening Keynote: Pandemics and Behavioral Science: What We Don't Know Might Hurt Us. Workshop on Behavioral Risk Modeling for Pandemic Prevention and Response, National Science and Technology Council and the Pandemic Prediction and Forecasting Science and Technology Working Group, Smithsonian Institution Museum of Natural History, 22 October 2018.
32. Jones, J.H. Inference from Minimal Ethnographic/Epidemiological Networks. Robert I. Proctor Foundation, University of California San Francisco, San Francisco, CA. 25 July 2018.
33. Jones, J.H. Decelerating, Correlated, and Skewed: Understanding How the Biophysical Environment Has Shaped Human Preferences. California Workshop in the Evolutionary Social Sciences, Santa Barbara, CA. 5 May 2018.

35. Jones, J.H. [Decelerating, Correlated, and Skewed: Understanding How the Biophysical Environment Has Shaped Human Preferences](#). Google, Mountain View, CA, 16 February 2018.
36. Jones, J.H. The Most Rational People in the World. Department of Biological Anthropology, University of Cambridge, 31 May 2017.
37. Jones, J.H. Vitamin C: Evolutionary paradoxes of our most important anti-oxidant. The Interval at the Long Now Foundation, San Francisco, CA, 16 May 2017.
38. Jones, J.H. Rationality Redeemed: An Evolutionary Perspective On Behavioral Economics. The Interval at the Long Now Foundation, San Francisco, CA, 17 January 2017.

39. Jones, J.H. Rationality. Workshop on Anthropological Epistemology and Meta-Categories. Center for Advanced Study in the Behavioral Sciences, Palo Alto, CA, 13 November 2015.
40. Jones, J.H. A Hierarchical Evolutionary Model for Human Risk Preferences. Center for Advanced Study in the Behavioral Sciences, Palo Alto, CA, 28 October 2015.
41. Jones, J.H. Plenary Lecture: The Marginal Value of Fertility. Evolutionary Demography Society Meeting, Lunteren, Netherlands, 6 October 2015.
42. Jones, J.H. The Most Rational People in the World: Risk and Rationality in Subsistence Populations, Evolutionary Demography Group, UCL/LSHTM, London, 16 June 2015.
43. Jones, J.H. Keynote Address: Mobile Pathogens in a Changing World, Grantham Institute and Grand Challenges in Ecosystems and the Environment, Imperial College London, 11 June 2015.
44. Jones, J.H. The Most Rational People in the World: Risk and Rationality in Subsistence Populations, Department of Ecology and Evolutionary Biology, Brown University, 28 April 2015.
45. Jones, J.H. The Most Rational People in the World: Risk and Rationality in Subsistence Populations, Department of Human Evolutionary Biology, Harvard University, 27 April 2015.
46. Jones, J.H. Human Dimensions of the Link Between Disease Emergence and Anthropogenic Environmental Change, Bay Area Global Health Seminar, University of California, Davis, CA, 20 April 2015.
47. Jones, J.H. Fitness Constraints, Risk Preferences, and Changes in Parental Investment, Department of Anthropology, University of California, Davis, 2 March 2015.
48. Jones, J.H. The Evolutionary Origins of Pessimism, Department of Demography, University of California, Berkeley, 11 February 2015.
49. Jones, J.H. The Role of the Social Sciences in Disease Ecology Research and Global Health, Stanford Global Health Convening, Stanford University, 9 January 2015.
50. Jones, J.H. The Ecology of Ebola, University of California, Irvine Symposium on Ebola Virus Disease, 27 October 2014.
51. Jones, J.H. Human Adaptation and Mobility. Research and Policy for Infectious Disease Dynamics (RAPIDD) Workshop, Stanford University, 28 April 2014
52. Jones, J.H. and P.T. Labo. Wavelet and Graph-Based Correlations with Patterns of Infection, March of Dimes Site Visit, Stanford University, 14 April 2014.
53. Jones, J.H. Human Behavior: The Missing Ingredient in Climate-Induced Disease Emergence? Research and Policy for Infectious Disease Dynamics (RAPIDD) Workshop, Princeton University, 15 January 2014.

54. Jones, J.H. Spirits in the Nonlinear World: Foraging, Life Histories, and Transmission. National Socio-Environmental Synthesis Center (SESYNC), University of Maryland, 19 November 2013.
55. Jones, J.H. Frontiers of Disease Ecology. Stanford Environmental Forum, Stanford, 7 November 2013.
56. Jones, J.H. Spirits in the Nonlinear World: Consequences for Human Foraging and Life History Decisions. Department of Experimental Psychology, Oxford, 25 October 2013.
57. Jones, J.H. Grand Challenges in Human Ecology. Grand Challenges in Ecosystems and the Environment Centre, Imperial College, London, 24 October 2013.
58. Jones, J.H. Social Science and Infectious Disease Epidemiology. Research and Policy for Infectious Disease Dynamics (RAPIDD) Workshop, Princeton University, 7 October 2013.
59. Jones, J.H. The Evolvability of the Human Life History. Keyfitz Centennial Symposium on Mathematical Demography, Ohio State University, 25 June 2013.
60. Jones, J.H. Networks, Models of Social Interaction, and the Dynamics of Infectious Disease. Department of Population Health, London School of Hygiene & Tropical Medicine, 1 November 2012.
61. Jones, J.H. Marginal Valuation, Elasticity, and Constraint in the Analysis of Human Reproductive Decisions. UCL/LSHTM Evolutionary Demography Group, 1 November 2012.
62. Jones, J.H. Networks, Models of Social Interaction, and the Dynamics of Infectious Disease. Division of Ecology and Evolution, Imperial College, London. 30 October 2012.
63. Jones, J.H. Primate Biodemography. OppNet Improving Animal Models Workshop, National Institutes of Health, Bethesda, MD. 23 July 2012.
64. Jones, J.H. Biodemography and Quantitative Genetics of an Historical Population. First Stanford Conference on Computational Social Science. Stanford, CA. 1 June 2012.
65. Jones, J.H. Networks, Models of Social Interaction, and the Dynamics of Infectious Disease. Department of Anthropology, University of Pennsylvania, 23 February 2012.
66. Jones, J.H. SIV Transmission Dynamics and the Early Evolution of HIV-1. Yale Center for Interdisciplinary Research on AIDS. 8 February 2012.
67. Jones, J.H. Networks, Models of Social Interaction, and the Dynamics of Infectious Disease. Institute for Mathematics in the Social Sciences, University of California Irvine. 30 October 2011.
68. Jones, J.H. Risk, subsistence, livelihood, and adaptive decisions. Woods Institute Environmental Forum, Stanford University. 7 April 2011.

69. Jones, J.H. Networks, Models of Social Interaction, and the Dynamics of Infectious Disease. Morrison Institute for Population and Resource Studies, Stanford University. 23 February 2011.
70. Jones, J.H. Why Men Hunt: Risk-Aversion and the Evolution of the Human Foraging Portfolio. Methods of Analysis Program in the Social Sciences, Stanford University. 7 January 2011.
71. Jones, J.H. SIVcpz Ecology and Epidemiology: Implications for the Emergence of HIV-1. Southern California Primate Research Forum, San Diego State University. 13 November 2010.
72. Jones, J.H. Contact Networks, Models of Infectious Disease, and Epidemic Simulation. Behavior, Evolution, and Culture Colloquium, UCLA. 1 November 2010.
73. Jones, J.H. Contact Networks, Models of Infectious Disease, and Epidemic Simulation. Center for Population Dynamics, Arizona State University. 22 October 2010.
74. Jones, J.H. Marginal Valuation, Elasticity, and Constraint in the Analysis of Human Reproductive Decisions. IGERT Program in Evolutionary Modeling, University of Washington. 11 March 2010.
75. Jones, J.H. Marginal valuation of fertility and risk-aversion in women's reproduction on the Utah frontier, 1849-1929. Department of Anthropology, University of Arizona. 10 February 2010.
76. Jones, J.H. Structure, Constraint, and Selection: Explorations in Biosocial Anthropology. Department of Anthropology, The Pennsylvania State University. 11 January 2010.
77. Jones, J.H. Structure Constraint and Selection: Explorations in Biosocial Anthropology. Department of Anthropology, Stanford University. 25 January 2010.
78. Jones, J.H. Human Evolutionary Demography: Marginal Valuation, Risk-Aversion, and Reproductive Decision-Making on the Utah Frontier. Department of Human Evolutionary Biology, Harvard University. 15 October 2009.
79. Jones, J.H. Mathematical Models for Infectious Diseases and The Evolution of Pathogen Virulence. Indiana University Themester Lecture Series, Indiana University. 11 September 2009.
80. Marginal valuation of fertility and risk-aversion in women's reproduction on the Utah frontier, 1849-1929. Department of Economics, Indiana University. 10 September 2009.
81. Jones, J.H. Anthropological Perspectives on Networks and Epidemics: Stopping Rules, Chimpanzee Sex, and Betweenness Variance. Center for Infectious Disease Dynamics, Pennsylvania State University. 28 April 2009.

82. Bird, R.B. and J.H. Jones. Evolution and human behavior: perspectives from human behavioral ecology. Wiley-Liss Invited Symposium. American Association of Physical Anthropologists, Chicago, IL. 2 April 2009.
83. Marginal valuation of fertility and risk-aversion in women's reproduction on the Utah frontier, 1849-1929. Morrison Institute for Population and Resource Studies, Stanford University, 18 February 2009.
84. Social interactions and infectious disease epidemiology. NAS/CNRS Frontiers of Science Symposium, Roscoff, France. 20-22 November 2008.
85. Marginal valuation of fertility and risk-aversion in women's reproduction on the Utah frontier, 1849-1929. Population Studies Center. University of Michigan. 13 October 2008.
86. Marginal valuation of fertility and risk-aversion in women's reproduction on the Utah frontier, 1849-1929. Department of Anthropology, UC Santa Cruz. 5 November 2008.
87. The marginal valuation of fertility. IUSSP Seminar on Trade-Offs in Female Life Histories. University of Bristol, Bristol UK (with R. Bliege Bird). 22 July 2008.
88. Finite mixture models for biodemographic inference. California Center for Population Research, University of California, Los Angeles. 24 October 2007.
89. Measuring heterogeneity in mortality using finite mixture models. Morrison Institute for Population and Resource Studies, Stanford University, November 2007.
90. Rank, not age, predicts the length of chimpanzee birth intervals. California Biodemography Program Project Conference on Sociality and Biodemography, Ponta Delgada, Açores. 17-20 June 2007.
91. Diabetes and Tuberculosis: The Demography of Interacting Epidemics. Demography and Infectious Disease: Integrating Multiple Levels of Biological and Social Information. Applera Foundation Lecture Series, Stanford CA. 23 February 2007.
92. Epidemic thresholds for heterogeneous two-sex epidemic models. Institute for Mathematics and the Behavioral Sciences, University of California, Irvine. 1 February 2007.
93. The evolution of biparental care in variable environments. Museum of Vertebrate Zoology, University of California, Berkeley. 22 November 2006.
94. Likelihood-based inference for sexual networks. Santa Fe Institute. 26 October 2006.
95. Excess male death and the marriage squeeze in Colombia: Implications for migration and the male life course. IUSSP Seminar on the Male Life Course, Marburg, Germany. 12 October 2006.
96. Dynamical consequences of interacting diabetes and tuberculosis epidemics. Stanford Center for Health Policy Seminar Series. 8 November 2006.

97. Stochastic models of sexual partnership distributions and implications for elimination and control of STIs. Quantitative Methods in the Social Sciences Colloquium Series, University of California, Santa Barbara. 25 January 2006.
98. Frailty models of chimpanzee fertility. Center for Statistics & the Social Sciences Seminar Series, University of Washington. 17 January 2006.
99. The demography of the Gombe chimpanzees: An analysis of 42 years of vital event data. Biological Anthropology Colloquium, Harvard University. 7 October 2005.
100. The demography of the Gombe chimpanzees: An analysis of 42 years of vital-event data. Bay Area Consortium on Population Lecture Series, University of California, Berkeley. 1 September 2005.
101. Health disparities and epidemic thresholds: Implications for defense against bioterrorism and emerging infections. Notestein Lecture, Office of Population Research, Princeton University. 15 February 2005.
102. Likelihood-based inference for network degree distributions. Department of Statistics Winter Colloquium, Stanford University. 8 February 2005.
103. Probability of orphanhood under a generalized AIDS epidemic. Morrison Center for Population and Resource Studies Winter Colloquium Series, Stanford University. 26 January 2005.
104. Landscape persistence of a sexually-transmitted infection in a metapopulation linked by male dispersal. Special session: Parasites and host social organization. Ecological Society of America, Portland, Oregon. August 2004.
105. Likelihood-based inference for network degree distribution. Special session: Statistical inference for social networks, Biometric Society, Western North America Region Meeting, Albuquerque, NM. 28 June 2004.
106. Early life events and life history theory. Plenary Session: The Fetal Origins of Developmental Plasticity, Human Biology Association Annual Meeting, Tampa, Florida. 15 April 2004.
107. Pair-bonding and the human life history problem. Department of Anthropological Sciences Colloquium, Stanford. 10 December 2003.
108. Cultural transmission in heterogeneous populations: Sexually transmitted diseases as biomarkers of cultural biases? *Toward a Scientific Concept of Culture* Conference, Department of Anthropological Sciences, Stanford University. 23 January 2003, Stanford, California.
109. Bayesian statistical methods and evolutionary anthropology. Biological Anthropology Seminar Series, University of Washington. 4 December 2002.
110. Epidemic thresholds exist in human sexual contact networks Center for Statistics and the Social Sciences, University of Washington. 9 October 2002.

111. AIDS orphans and “grandorphans” in Sub-Saharan Africa: The Impact of Correlated Mortality on Households and Kinship Structure (with Martina Morris). Department of Demography, University of California, Berkeley. 13 March 2002.
112. AIDS orphans and “grandorphans” in Sub-Saharan Africa: The Impact of Correlated Mortality on Households and Kinship Structure. Center for Studies in Demography & Ecology Seminar Series, University of Washington. 8 March 2002.
113. Modeling the Differential Prevalence of Bacterial STDs. Department of Anthropological Sciences, Stanford University. 1 February 2002.
114. Rethinking strategies for estimating demographic schedules from incomplete data. Center for Statistics & the Social Sciences Seminar Series, University of Washington. 7 November 2001.
115. Matrix Population Models and the Evolution of the Human Life Cycle. Department of Ecology, Evolution & Behavior, University of Minnesota, St. Paul, Minnesota 3 March 2000.
116. Population dynamics and extinction in structured populations: Applications to the Middle Paleolithic. Stone Age Laboratory, Harvard University, 2000.
117. Cooking and the Evolution of Human Sexual Bonding. Department of Anthropology Colloquium, Yale University, New Haven Connecticut, 1999.
118. Population Models for Orangutan Conservation. Department of Anthropology, New York University, New York, New York, 1999.
119. Population Models for Orangutan Conservation. Department of Anthropology Colloquia Series, Harvard University, Cambridge, Massachusetts, 1999.
120. Production Models of Primate Life Histories. Department of Anthropology Colloquia Series, Harvard University, Cambridge, Massachusetts, 1997.
121. Ultimately, Why Do Primates Grow So Slowly? Department of Anthropology Colloquia Series, Harvard University, Cambridge, Massachusetts, 1995.
122. Phylogenetic Systematics and Ruminant Evolution. Department of Animal Science Colloquia Series, Oregon State University, Corvallis, Oregon, 1994.

## **6 Fellowships and Honors**

- 2020- Faculty Fellow, Center for Advanced Study in the Behavioral Sciences, Stanford University.
- 2019 Visiting Researcher, Economic Science Institute, Chapman University
- 2015 Andrew W. Mellon Foundation Fellowship at the Center for Advanced Study in the Behavioral Sciences, Stanford University.
- 2015 Margo Wilson Award for Best Paper in 2014, Evolution and Human Behavior Society.
- 2012 Institute for Research in the Social Sciences Fellowship.
- 2009 Stanford-France Cooperation Grant, Stanford University (declined).

- 2008 National Academy of Sciences/Centre National de la Recherche Scientifique, Kavli Frontiers in Science, Invited Speaker.
- 2007 Hellman Faculty Scholar, Stanford University.
- 2007 Center Fellow, Woods Institute for the Environment, Stanford University.
- 2005 Career Development Award (K01), National Institute for Child Health and Human Development.
- 2001 National Research Service Award, National Institute for Allergy and Infectious Diseases.
- 2000 New Investigator Prize, Human Behavior and Evolution Society Annual Meeting, Amherst, Massachusetts.
- 2000 Edmund J. Curley Scholarship.
- 2000 Derek Bok Center for Teaching Award (Also 1993, 1995, 1999).
- 1999 Harvey E. Clifford Scholarship.
- 1998 Cora DuBois Charitable Trust Fellowship.
- 1995-96 Fulbright Fellowship to Indonesia.
- 1992-94 Ann Getty Predoctoral Fellowship, Harvard University.
- 1990 Florida Honors Waiver.

## **7 Research Grants**

### **Principal Investigator**

- 2021 “Predictive Intelligence and Pandemic Preparedness, Theme 4: Policy and Behavioral Obstacles and Supports.” NSF BCS-2118926.
- 2021-22 “Modeling the Aggregate Effects of Structural Uncertainty and Their Effects on Epidemic Control.” Center for Innovation in Global Health, Stanford University.
- 2021-22 “Imagining Adaptive Societies.” The Changing Human Experience Initiative, School of Humanities and Sciences, Stanford University.
- 2021-22 “Ethical Partnerships among Humans, Nature, and Machines.” Ethics, Society, & Technology Hub, Collaborative Research Projects, Stanford University.
- 2020 “RAPID: Coupled Contagion, Behavior-Change, and the Dynamics of Pro- and Anti-Social Behavior During the COVID-19 Pandemic.” NSF BCS-2028160.
- 2018-2020 “Mobility and Adaptation in a Changing Environment: Consequences of Water Resource Distribution for Infectious Disease Transmission in Namibia.” Environmental Venture Projects Program, Woods Institute for the Environment, Stanford University.
- 2011-2014 “Individual Decisions and Emergent Aggregate Patterns: Kin Co-residence among Hadza Hunter-Gatherers,” NSF BCS-1062879.
- 2005-2011 “Demographic Change and Dependent Social Structures,” NICHD 1K01HD051494.

- 2009 “RAPID: Structure of Contact Networks and the Spread of Flu-like Infectious Diseases: Implications for Dynamics and Control,” NSF BCS-0947132 (Cultural Anthropology and Methodology, Measurement and Statistics).
- 2009 “Doctoral Dissertation Research: Motives for Consuming, Sharing and Trading Wildlife in Urban Cameroon,” (Shannon Randolph, Co-PI). NSF BCS-0922045.
- 2008 “Doctoral Dissertation Research: Life History Perspectives on Violent Conflict in Colombia,” (Brodie Ferguson, Co-PI). NSF BCS-0753741.
- 2008 “Doctoral Dissertation Research: Social Networks and Social Capital: New Techniques for Studying Marginalized Populations at Risk,” (Yeon Jung Yu, Co-PI). NSF BCS-0753231.
- 2007-2009 “Forest Conversion and the Changing Epidemiological Environment,” Stanford Woods Institute for the Environment Environmental Ventures Program Grant.
- 2007 Conference Grant: “The Demography of Infectious Disease,” Applera Corporation.

### **Co-Principal Investigator**

- pending “PIPP Phase II: Theme 4: Center for Equitable Modeling of Pathogen Transmission and Human Interactions (EMPATHI),” Volodymyr Minin, PI, National Science Foundation, Predictive Intelligence and Pandemic Preparedness Program.
- pending “Upscaling adaptation: The coupling of climate-change adaptation and human social networks,” Anne Pisor, PI. NSF Dynamics of Integrated Socio-Ecological Systems Program.
- 2021 “A Social Science/Sustainability Incubator: Interdisciplinary Scholarship and Practice to Amplify Impact and Redefine Solutions,” Nicole Ardoin, PI. Stanford Sustainability Seed Grant.
- 2020-2021 “Health seeking behavior and community trust during COVID-19 pandemic in Liberia,” Steve Luby, PI. Stanford Chem-H RISE Innovation Grant.
- 2018-2022 “Ebola Modeling: Behavior, Asymptomatic Infection, and Contacts,” Travis Porco, PI. NIGMS R01GM130900, Models of Infectious Disease Agent Systems (MIDAS) Program.
- 2011-2016 “US-UK Collab: Biological and Human Dimensions of Primate Retroviral Transmission,” Tony Goldberg, PI. NIAID R01AI098420 via NSF/NIH Ecology and Evolution of Infectious Disease (EEID) Program.
- 2012-2017 “Comparative Spillover Dynamics of Avian Influenza in Endemic Countries,” Peter Daszak, PI. R01TW009502 via NSF/NIH Ecology and Evolution of Infectious Disease (EEID) Program.
- 2010-2015 “Research Networks in Biodemography and the Demography of Aging,” NICHD, R24AG039345.

- 2011-2014 “Stanford Center for Population Research: Center Grant,” Shripad Tuljapurkar, PI. NICHD.
- 2011-2013 “Socio-economic and political drivers of oil palm expansion in Indonesia: Effects on rural livelihoods, carbon emissions and REDD,” Lisa Curran, PI. NASA Earth Science Program.
- 2009-2012 “Anthropogenic Fire, Human Foraging Strategies, and Ecosystem Dynamics in the Western Desert of Australia,” Rebecca Bird, PI. NSF Cultural Anthropology.
- 2009-2010 “Global Climate Change and Regional Conflict in the African Sahel,” Roz Naylor, PI. Freeman-Spogli Institute for International Studies Presidential Fund.
- 2009-2010 “An interdisciplinary approach to understanding the role of anthropogenic fire in the desert grasslands of Australia,” Douglas W. Bird, PI. Stanford Woods Institute for the Environment Environmental Ventures Program Grant.
- 2007-2009 “Workshops in Formal Demography and Biodemography,” Shripad Tuljapurkar, PI. NICHD.
- 2004-2006 “Workshops in Formal Demography,” Shripad Tuljapurkar, PI.
- 2005-2007 “Anthropogenic Burning as a Resource Management Strategy Among Australian Hunter-Gatherers,” Rebecca Bliege Bird and Douglas Bird, Co-PIs. Stanford University Office of Technology Licensing Research Incentive Grant.

### **Senior Personnel**

- 2020-2023 “The Cultural Anthropology Methods Program (CAMP): Advanced Research Training for Ph.D. Students,” NSF, PI: Amber Wutich. BCS-2017491.
- 2009-2014 “Molecular Epidemiology and Natural History of SIVcpz,” NIAID, PI: Beatrice Hahn. R01AI058715-06A109.
- 2009-2014 “Epidemiology of Emerging Infectious Diseases and Bioterrorism,” PI: Julie Parsonnet. NIAID 2T32AI052073-06A1. PI: Julie Parsonnet.

### **Other Research Awards**

- 2021 Center for Innovation in Global Health Seed Grant.
- 2021 Cultivating Humanities and Social Sciences Grant.
- 2020 IRiSS Seed Grant.
- 2020 Stanford Sustainability Seed Grant (x2).
- 2018 ADVANCE Program, Mentored Research Award (Anne Pisor), Washington State University.
- 2017 Vice-Provost for Teaching and Learning Innovation Grant.
- 2015 Ebola Seed Grant (Social Epidemiology of Ebola), Stanford School of Medicine.
- 2015 Ebola Seed Grant (Spatial Ecology of Ebola), Stanford School of Medicine.

2014 Spectrum Pilot Grants for Population Health Sciences and Community Engagement.  
2012 Freeman-Spogli Institute Action Fund Grant.  
2004 Seed Grant for Exploratory Research, CEDA, UC Berkeley.  
2004 Stanford Institute for International Studies, Hewlett Family Fund Grant.  
1998 Mellon dissertation completion award.  
1997 Mellon dissertation top-up award.  
1995 Mellon pre-dissertation award.

## 8 Teaching

### Courses

**Graduate:** Research Methods; Demography and Life History Theory; Biological and Social Networks; Adaptation; Epidemic Modeling; Statistics; Evolutionary Theory

**Undergraduate:** Adaptation; Global Change and Emerging Infectious Disease; The Most Rational People in the World; Human Population Biology; Imagining Adaptive Societies

**Workshops:** Stanford Workshop in Formal Demography and Biodemography (2004-2012); [Workshop in Anthropological Networks](#) (2018-); [Life History Theory in 10 Papers](#) (2020-).

### Students and Post-Docs Supervised

#### Post-Docs

Aja M. Sutton (2023-)  
Matthew Turner (2021-)  
Ryan Baldini (2015) Current Position: Data Scientist, Seagate Technologies.  
Zhiyuan Song (2014-2016) Current Position: Data Scientist, Google.  
M. Ashley Hazel (2013-2018) Current Position: Research Scientist, Proctor Foundation, UCSF.  
Lucie Clech (2013-2014) Current Position: Researcher, Institut de Recherche pour le Développement.  
Philip T. Labo (2012-2014) Current Position: Principal Data Scientist at Perspica.  
Brian M. Wood (2010-2012) Current Position: Associate Professor, UCLA.  
Sean Downey (2010) Current Position: Associate Professor, Ohio State University.  
Marcel Salathé (2009-2010) Current Position: Associate Professor, École Polytechnique Fédérale de Lausanne.  
Daniel J. Salkeld (2008-2010) Current Position: Research Scientist III, Colorado State University.  
Sadie Jane Ryan (2007-2009) Current Position: Associate Professor University of Florida.

#### Ph.D. Students

Cesar Lopez, (Emmett Interdisciplinary Program in the Environment and Resources), primary co-advisor (2022-).

- Aly Singleton, (Emmett Interdisciplinary Program in the Environment and Resources), committee member (2021-).
- Mallory Harris, (Department of Biology), committee member (2020-).
- Ian Harryman, primary advisor (2020-).
- Brandon Reynante (Graduate School of Education), committee member (2018-2023).
- Caroline Muraida, (Emmett Interdisciplinary Program in the Environment and Resources), primary co-advisor (2018-). Current Position: MD student, University of New Mexico School of Medicine.
- Rae Wannier (Department of Epidemiology, UCSF), committee member (2018-2023).
- Mary-Catherine Anderson, primary advisor (2015-2021). Current Position: Mixed-Methods Research, Google.
- Eugene T. Richardson, primary advisor (2013-2017). Current Position: Assistant Professor of Global Health and Social Medicine, Harvard Medical School.
- Ronan Arthur (Emmett Interdisciplinary Program in the Environment and Resources), primary co-advisor (2013-2019). Current Position: Post-Doctoral Fellow, Stanford School of Medicine.
- Whitney Bagge (Emmett Interdisciplinary Program in the Environment and Resources), primary co-advisor (2011-2017). Current Position: Disease Ecologist, EcoHealth Alliance, New York, NY.
- Laura Bloomfield (M.D.-Ph.D., Emmett Interdisciplinary Program in the Environment and Resources), primary co-advisor (2011-2020). Current Position: Post-Doctoral Fellow, University of Vermont.
- Maddie Brown, committee member (2011-2017). Current Position: Assistant Professor, University of Maryland.
- Elsbeth Ready, co-primary advisor (2010-2016). Current Position: Senior Research Scientist, Max Planck Institute for Evolutionary Anthropology.
- Michael Price, co-primary advisor (2009-2015). Current Position: ASU-SFI Post-Doctoral Fellow in Biocomplexity, Santa Fe Institute.
- Eleanor Power, co-advisor (2008-2015). Current Position: Associate Professor, London School of Economics and Political Science.
- Alejandro Feged, primary advisor (2007-2014). Current Position: Director of Doctoral Program in Public Health, Universidad el Bosque, Colombia.
- Brian Coddling, committee member (2006-2011). Current Position: Professor, University of Utah.
- Yeon Jung Yu, primary advisor (2006-2014) Current Position: Associate Professor, Western Washington University.
- Shannon Randolph, primary advisor (2005-2016). Current Position: Associate Director, Rick and Susan Sontag Center for Collaborative Creativity, Claremont, CA.
- Brodie D. Ferguson (Ph.D. 2010), primary advisor (2004-2010). Current Position: President, Anthroctect.
- Kathryn Grace (Ph.D., Geography, UC Santa Barbara, 2008), thesis committee member (2006-2008). Current Position: Associate Professor, University of Minnesota.
- Raziel Davison (Ph.D. 2011, Biological Sciences), thesis committee member (2006-2011). Current Position: Research Scientist, UCSB.

Cedric Puleston (Ph.D., Biological Sciences, 2009), thesis committee member (2005-2009).

Current Position: Research Associate, UC Davis.

Karim Al-Khafaji (Ph.D., Biological Sciences, 2008), thesis committee member (2005-2008).

Current Position: Associate Director of Engagement Management, Opower.

Charles Roseman (Ph.D. 2005), thesis committee member (2003-2005). Current Position:

Associate Professor, University of Illinois (2003-2005)

Neil Abernethy (Ph.D., Medical and Bioinformatics, 2005), thesis committee member

(2003-2005). Current Position: Associate Professor, University of Washington.

## 9 Professional activities and memberships

### Directorships, Committee Chairs, Editorial Boards

Associate Editor, *Evolutionary Human Sciences*. 2023-

Member, *Global Environmental Change* Commission on Climate Reparations. 2022-

Member, Editorial Board, *Journal of Mathematical Sociology*. 2022-

President, Evolutionary Demography Society. 2020-2021.

Director, Program on Humans, Nature, and Machines, Center for Advanced Study in the Behavioral Sciences, Stanford University. 2021-2023.

Associate Chair, International Scientific Advisory Board, Max Planck Institute, Leipzig. 2020.

Co-Organizer, Workshop: Adaptation, Optimality, and Risk Management: What Do the Human Evolutionary Sciences Have to Offer the Climate Sciences? National Socio-Environmental Synthesis Center (SESYNC), Anapolis, MD. 8-11 September 2020.

Member, International Scientific Advisory Board, Max Planck Institute, Leipzig. 2016-2023.

Member, Fellowship Selection Committee, Center for Advanced Study in the Behavioral Sciences, Stanford. 2016-2019.

Member, Board, Evolutionary Demography Society, January 2015-.

Co-Organizer, Workshop in Biological and Social Networks. Imperial College. July 2014.

Co-Organizer, Research and Policy in Infectious Disease Dynamics (RAPIDD) Workshop on Environmental Change, Human Mobility, and Infectious Disease. Stanford University. April 2014.

Member, Executive Committee, Stanford Center of Population Research. Stanford University. September 2012-2016.

Director, Methods of Analysis Program in the Social Sciences (MAPSS), Stanford University. September 2010-2014.

Co-Chair, Environmental Ventures Program Scientific Panel, Woods Institute for the Environment, Stanford University. September 2011-2015.

Associate Editor, *American Anthropologist*. June 2012-2016.

Associate Editor, *Journal of Animal Ecology* (Primates and disease ecology). January 2010-2015.

Co-Director, Methods of Analysis Program in the Social Sciences (MAPSS), Stanford University. September 2009-2010.

Academic Editor, *PLoS ONE*. October 2008-October 2010.

### **Review Panels**

Panelist, National Science Foundation, Dynamics of Integrated Socio-Environmental Systems Awards Committee. February 2020.

Member, Knight-Hennessy Scholarship Selection Committee. 2020-.

Panelist, National Science Foundation, Cultural Anthropology Senior Awards Committee. April 2010.

Member, Ecology of Infectious Disease Executive Committee, National Science Foundation/National Institute of Health. 2010.

Panelist, National Science Foundation/National Institute of Health, Ecology of Infectious Disease Panel. 2008-2009.

Panelist, National Science Foundation, Cultural Anthropology Dissertation Awards Committee. April 2007-2008.

Member, Scientific Review Group, National Institute of General Medical Sciences, Models of Infectious Disease Agent Study (MIDAS). Bethesda, MD. 2005.

Member, Environmental Ventures Program Scientific Panel, Woods Institute for the Environment, Stanford University. 2005-2008.

Member, National Science Foundation, Human Social Dynamics: Agents of Change Advisory Panel. June 2004.

Member, Harvard College Rhodes Scholarship and British Marshall Scholarship Endorsement Committee. 1998-2000.

### **University Committees**

Member, Committee on Residential Learning, Stanford Faculty Senate. 2023-

Member, Budget Committee, Stanford Doerr School of Sustainability. 2023-

Member, Undergraduate Advisory Council, Office of the Vice Provost for Undergraduate Education. 2022-

Member, Resident Fellows Leadership Council. 2018-2021

Faculty Athletic Fellow, Men's Varsity Water Polo, 2017-2019. Women's Rowing, 2019-2021.

Chair, Admissions Committee, Emmett Interdisciplinary Program in the Environment and Resources (E-IPER). 2017-2020.

Member, Executive Committee, Earth Systems. 2016-

Member, Executive Committee, Emmett Interdisciplinary Program in the Environment and Resources (E-IPER). 2015-2020.

Member, Woods Institute Director Search Committee. 2015.

Head, Leadership Team, "Human Ecology" Faculty College. 2013-2014.

Member, Leadership Team, "iEarth" Faculty College. 2012-2013.

Member, Advisory Committee, Center for the Economics and Demography of Health and Aging, Stanford University. 2009-2012.

Member, Advisory Committee on International Health, Stanford Medical School. 2004-2006.

Member, Research Committee, Woods Institute for the Environment. 2005-2009.

Steering Committee Member, Methods of Analysis Program in the Social Sciences (MAPSS), Stanford. 2003-2007.

### **Panel Contributions**

Co-Organizer, Symposium: Undermining the Production of Race Science, American Association of Biological Anthropologists, Los Angeles, CA. 21 March 2024.

Co-Organizer, Adaptation and Innovation for Sustainable Societies Conference, Stanford Graduate School of Business, Stanford, CA. 19-20 May 2023.

Co-Organizer/Discussant, Wiley Symposium: Human responses to climate change: What anthropologists want climate scientists and policymakers to know, American Association of Physical Anthropologists, Los Angeles, CA. 16 April 2020.

Organizer/Chair/Discussant, Sampling, Missing Data, and Inference in Ethnographic Networks, Sunbelt XXXVIII Social Networks Conference, Utrecht, Netherlands. 26 June 2018.

Member, Program Committee, American Association of Physical Anthropologists, Austin, TX. 11 April 2018.

Organizer/Chair/Discussant, Evolutionary Anthropological Approaches to Economic Inequality, American Anthropological Association, Minneapolis, MN. 19 November 2016

Organizer/Chair/Discussant, Social Networks in Evolutionary Anthropology, American Anthropological Association, Chicago, IL. 23 November 2013.

Chair/Discussant, Biodemography of Fertility. Population Association of America, New Orleans, LA. 5 April, 2013.

Chair, Mobility and Marginalized Populations. American Anthropological Association, San Francisco, CA. 17 November 2012.

Discussant, Evolution-Proof Pharmaceuticals? Palo Alto Institute Symposium on Evolutionary Medicine, Stanford School of Medicine. 8 May 2012.

Chair, Couple Dynamics and Fertility in Africa. Population Association of America, Dallas, TX. 17 April, 2010.

Discussant, Sexual Behavior, Sexual Networks, and STDs. Population Association of America, Los Angeles, CA. 30 March 2006.

Organizer, IRiSS Workshop: Anthropological Perspectives on Ecology and Health, Stanford, CA. November 2004.

Chair, Human Behavior and Evolution Society Session on Life History Strategies, HBES Annual Meeting, Amherst, Massachusetts, 9 June 2000.
